

Affordable Cutting Edge

Revolutionizing Value Added Distribution

Affordable Cutting Edge

Our Concept

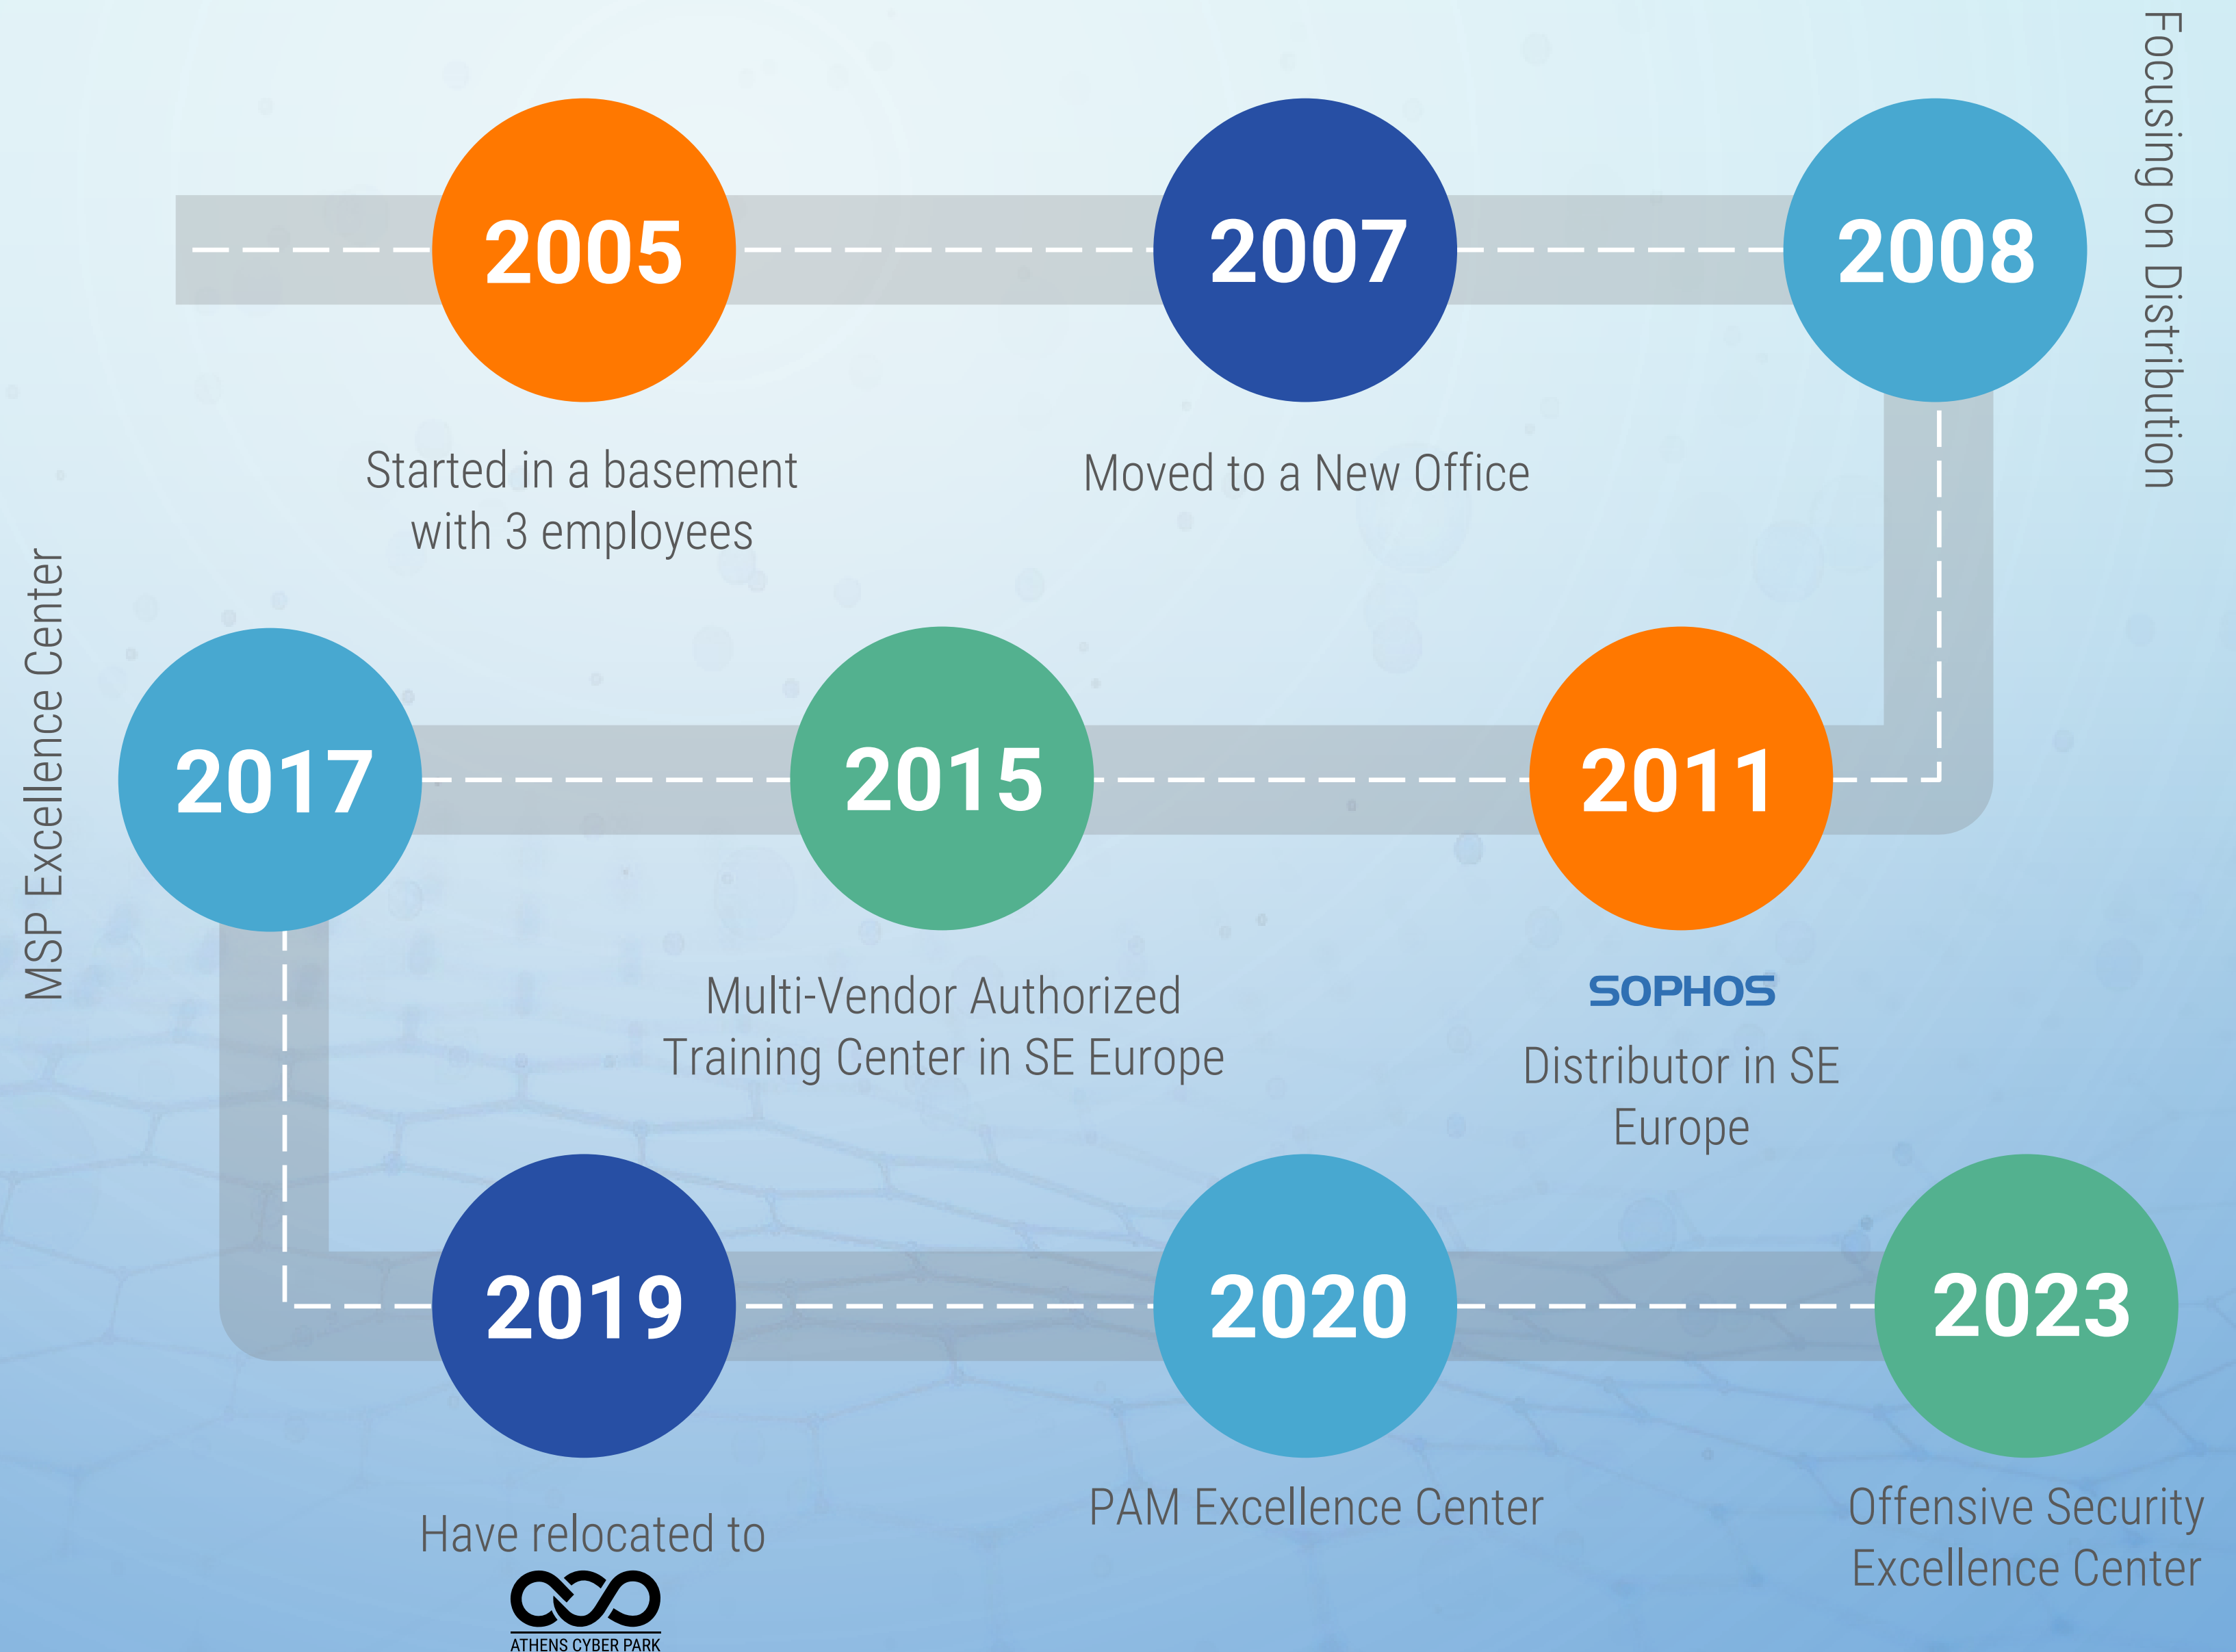

Our History

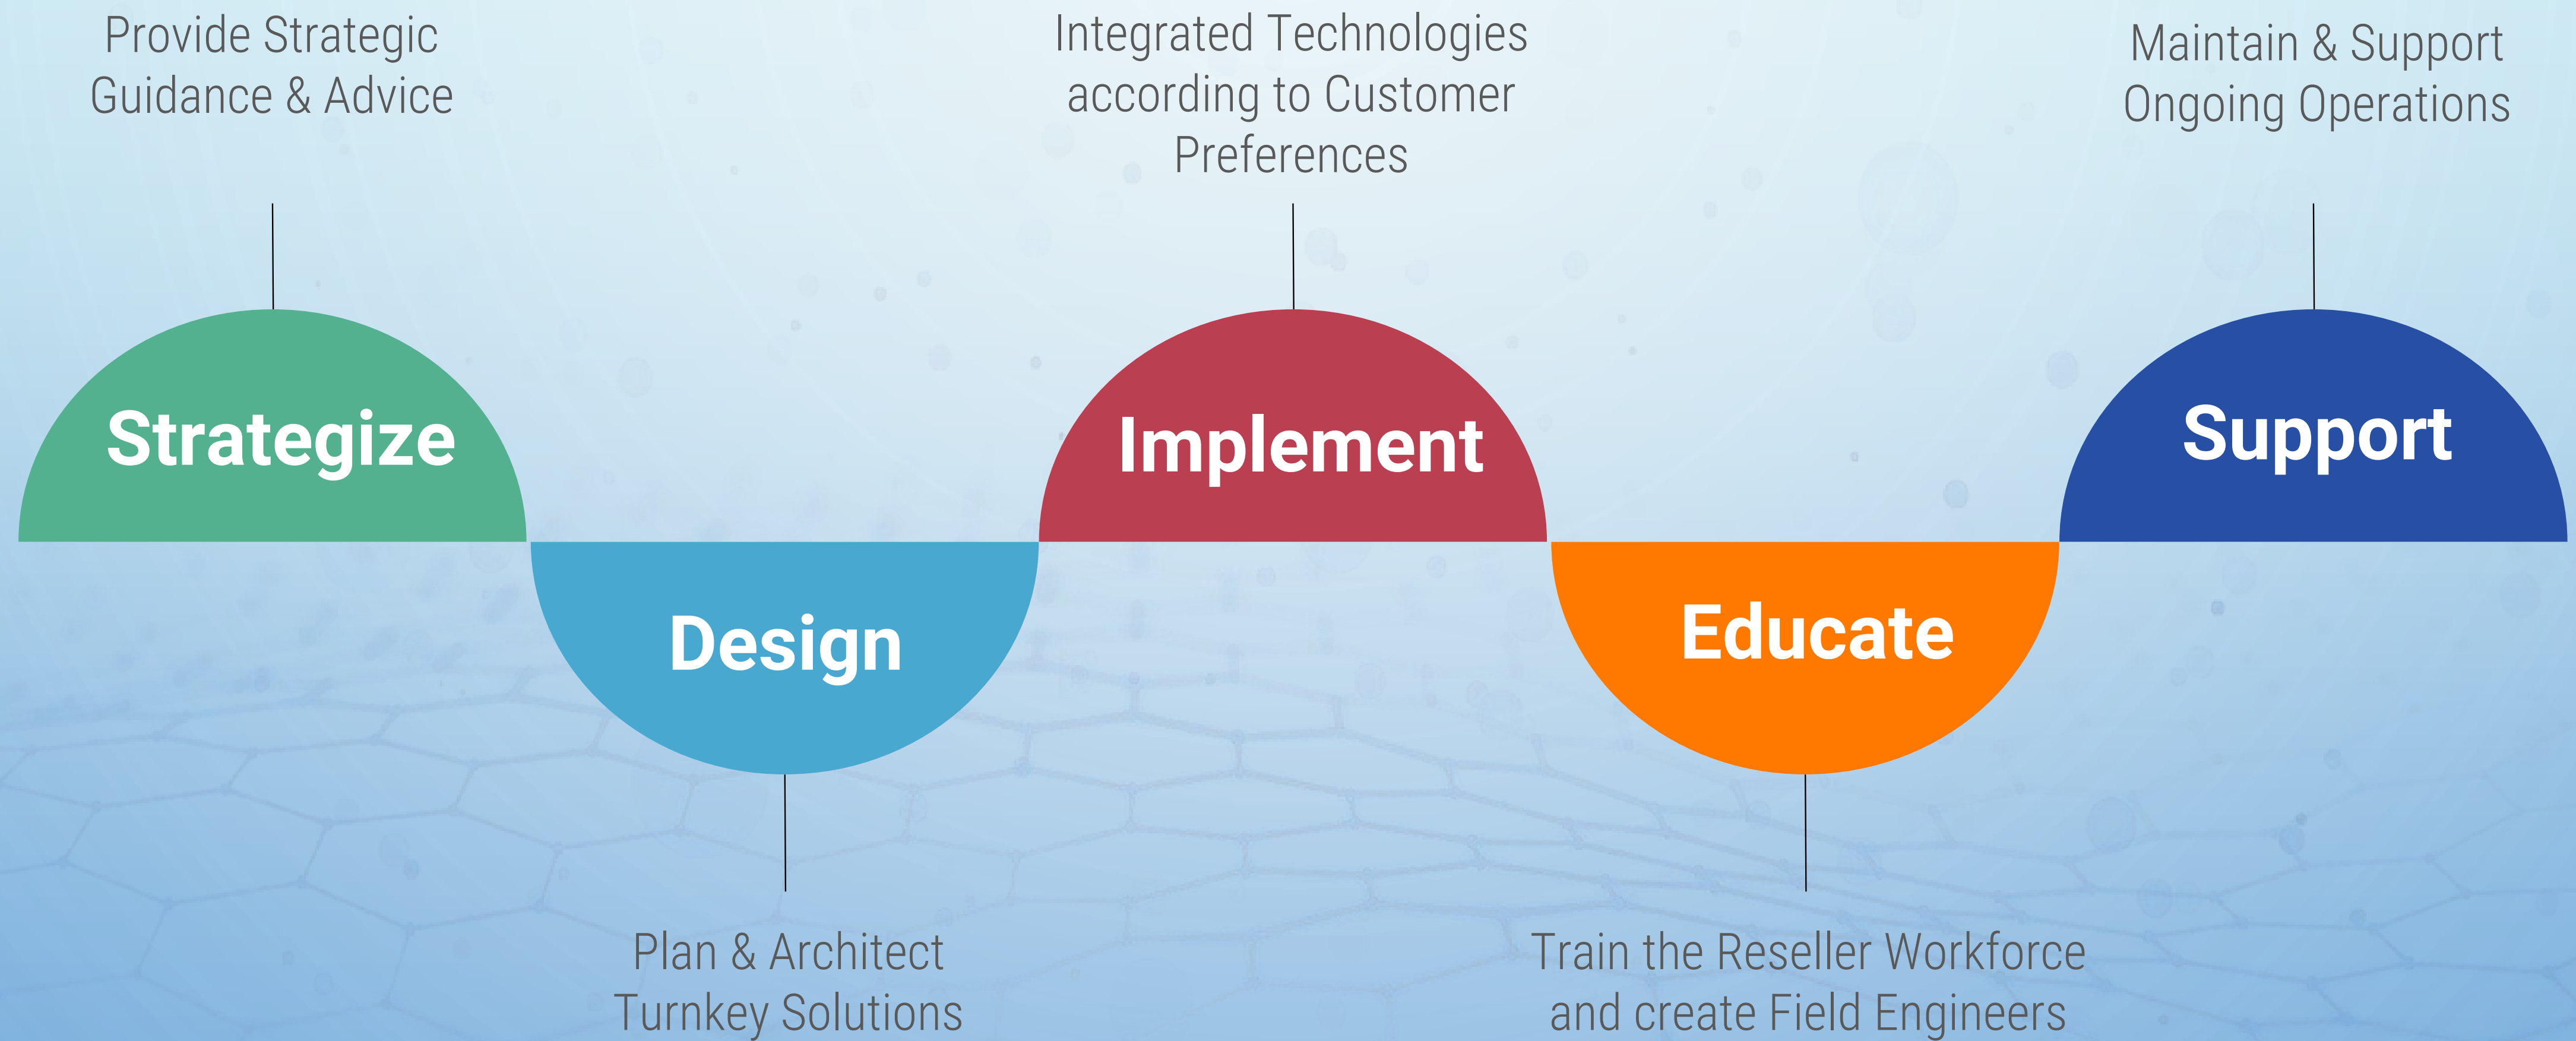

NSS is a true Value-Added Distributor investing in KNOWLEDGE whereas stocking distributors invest in Inventory

We are an active TRAINING & SUPPORT Center officially for all our Vendors

Serve with HEART, no matter WHAT !

Our Added Value

Quality Management

NSS Data Assurance Policy

NSS places a high level of importance in protecting the data of the company and its customers as well as ensuring the quality of service it provides, according to the standards of ISO 27001:2013 and ISO 9001:2015 respectively.

NSS Quality Objectives

- ▷ Absolute specialization in the fields of its business activity.
- ▷ Continuous qualitative and quantitative improvement of the quality of products and services.
- ▷ Modern and responsible treatment of all customers needs.

Cybersecurity As a Service

MSP
SOPHOS

Sophos Security Products are working Simple and can be integrated, functioning together and being Synchronized working together as One

- ▷ Unified Security concept for all solutions
- ▷ Endpoint Security for Workstations & Servers
- ▷ Data Encryption for Media, Net Shares, Cloud
- ▷ Nextgen Web Security & Application Control
- ▷ Email Security & Data Leakage Protection
- ▷ Mobile Security for Phones & Tablets
- ▷ Support for all Operating Systems

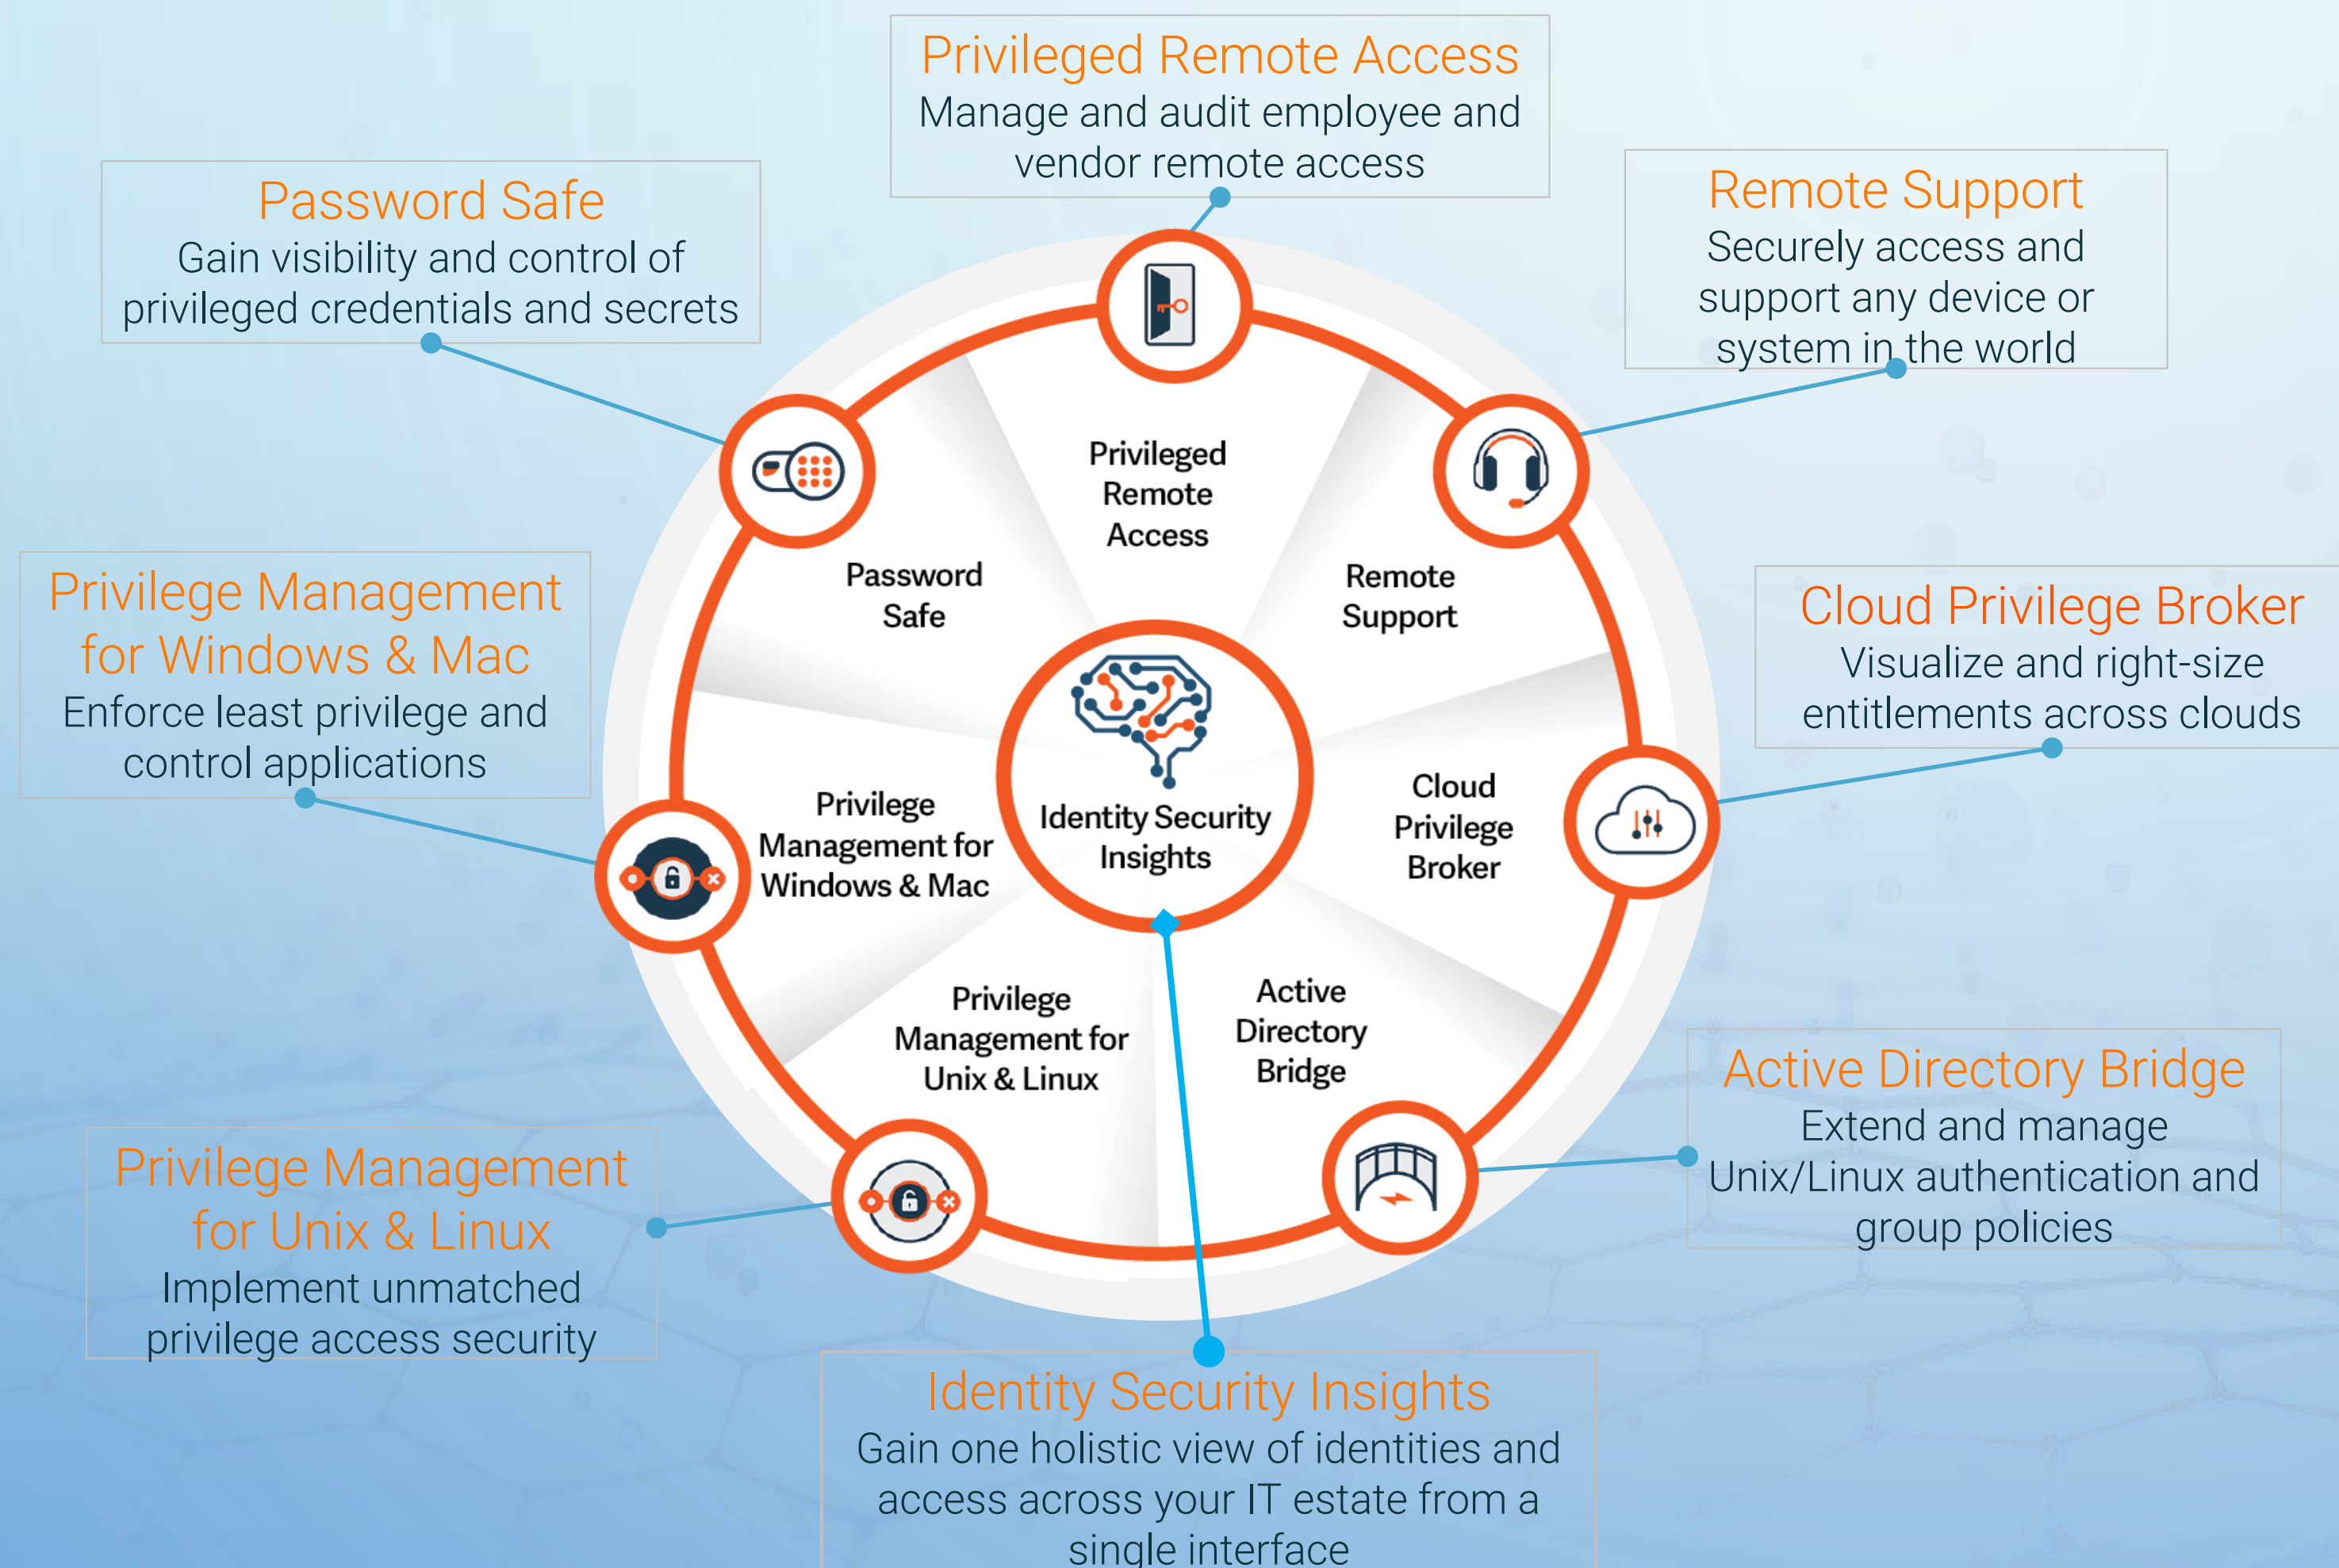

Sophos Adaptive Security Ecosystem (ACE)

Leveraging automation and human operators to deliver protection that constantly learns and improves.

- ▶ Enabling the shift from security management to security operations
- ▶ Constantly learning and improving
- ▶ Protecting systems and data wherever they exist
- ▶ Powering Synchronized Security. Delivering real business impact
- ▶ An open platform
- ▶ A system that grows with your business

Privileged Account Security

BeyondTrust Universal Privilege Management provides security to every user, asset, and session across your enterprise

- ▶ Scan, identify and profile all assets and accounts, providing full session recording and real-time visibility into privileged user behavior
- ▶ Eliminate unnecessary privileges and elevate rights to Windows, Mac, Unix, Linux and network devices without hindering productivity
- ▶ Privileged Remote Access allows you to secure, manage, and audit vendor and internal remote privileged access without VPN

Data Protection

From discovery, to monitoring, to blocking

AI engine recommendations reduce business friction

Taking a Zero Trust approach to file sharing

Managing access and mitigating overall identity risk

Data Protection for Safeguarding important information from theft or loss, protecting Sensitive Data and keep users productive.

- ▷ DLP for immediate visibility & data security
- ▷ Data Classification for enhancing data security by applying visual and metadata labels
- ▷ Secure Collaboration solution encrypts and controls access to sensitive files
- ▷ IAM for provisioning, continuous compliance, and actionable analytics for improved identity governance

Fortra offers robust IT Infrastructure Protection solutions that cover all of your security needs, aiming to reduce the risk of such attacks through countermeasures like:

- ▷ Vulnerability Assessment
- ▷ Penetration Testing
- ▷ Red Teaming
- ▷ Intrusion Prevention and Detection
- ▷ Security Monitoring
- ▷ Configuration Management

Security Awareness Training

Change user behaviors.

Reduce cyber risk.

Secure critical data.

Avoid data breaches with customizable, affordable cyber security awareness training solutions.

- ▷ Boost engagement with immersive training
- ▷ Empower users with phishing simulation training
- ▷ Measure behavior change with in-depth analytics
- ▷ Improve knowledge retention with gamified training
- ▷ Easy integration for seamless training deployment

Secure and Streamline File Transfers with MFT

Multi-Platform and Environment Flexibility

GoAnywhere works where and how you need it: whether it's on-premises, cloud, hybrid or SaaS.

Encrypt Sensitive Files in Motion and at Rest

GoAnywhere lets you choose the secure protocols you and your trading partners need, including HTTPS, SFTP, and FTPS.

Automate and Streamline with Triggers and Scheduling

Utilize secure workflows to easily automate and streamline your entire file transfer process.

Meet Stringent Compliance Requirements

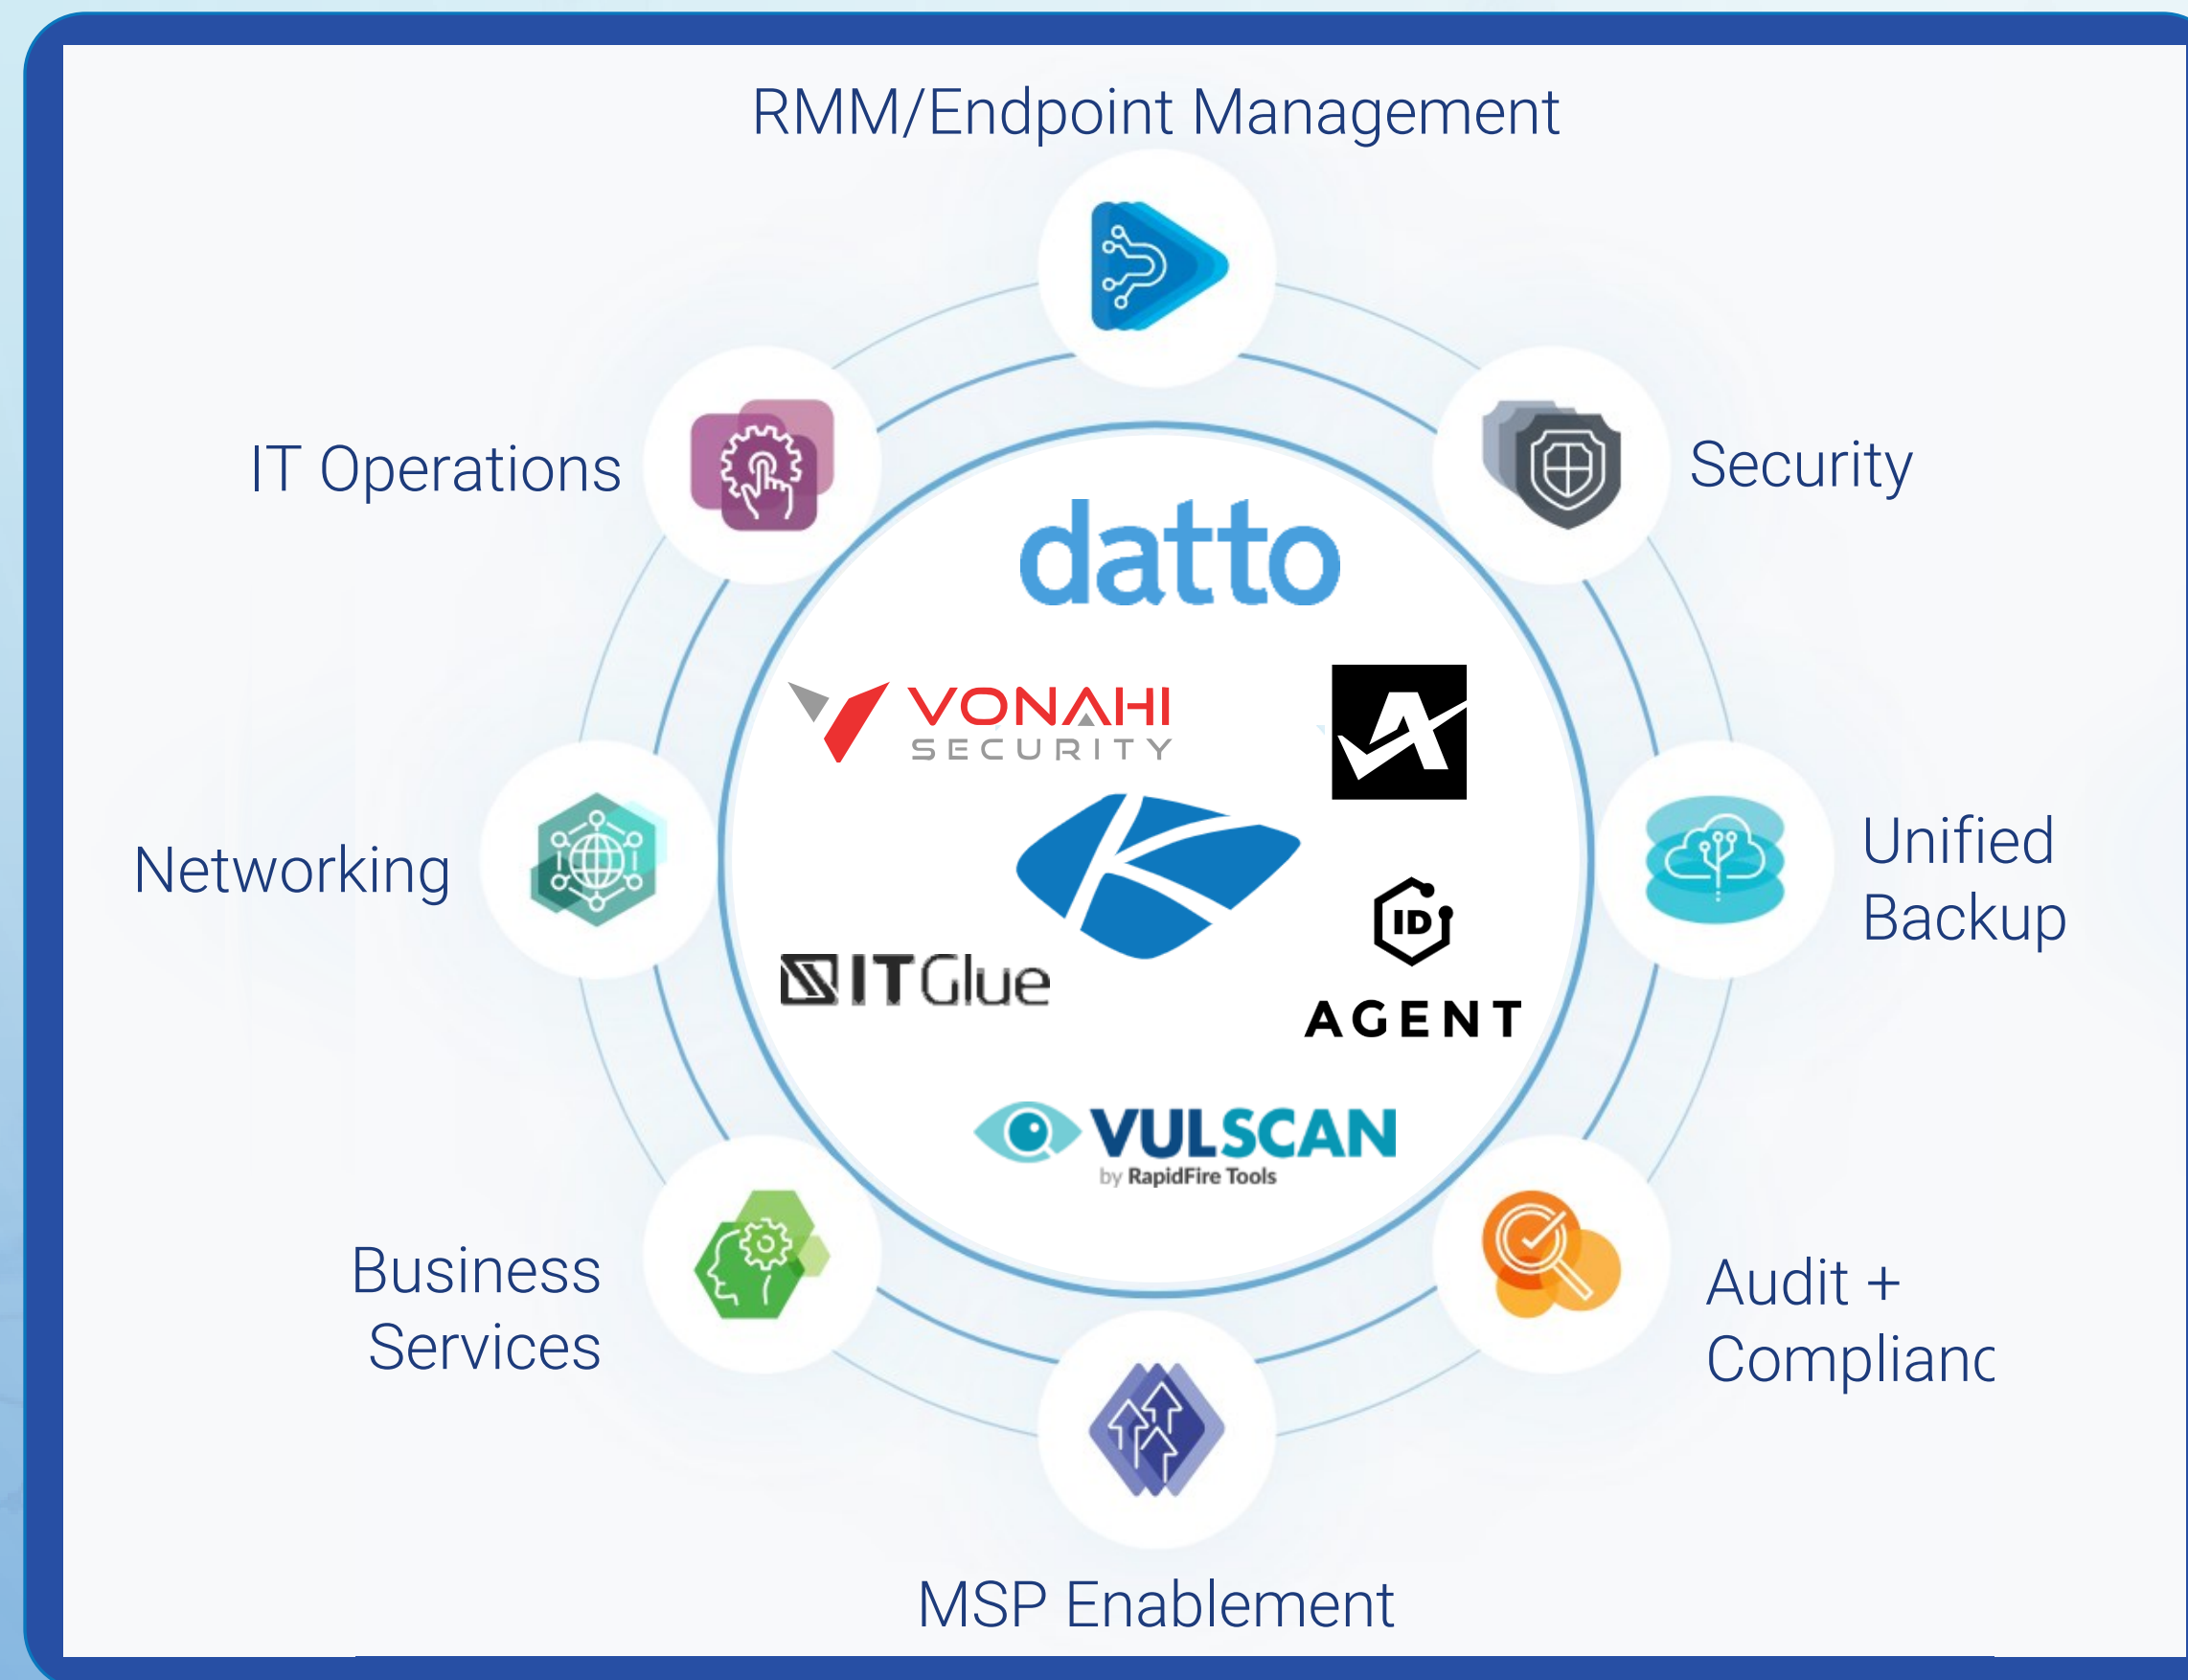

Strong encryption technology, authentication, and enterprise-level features help support HIPAA, PCI DSS, GDPR, and other compliance requirements your enterprise business faces.

Comprehensive, enterprise-level MFT designed to help you seamlessly and securely manage data transfers no matter where the data resides or where the instance is deployed.

- ▷ Move files with extensive security controls to meet compliance requirements
- ▷ Eliminate the need for custom programs/scripts, single-function tools, or manual processes
- ▷ Easily manage all file transfers through a modern, web-based interface
- ▷ Choose the best fit protocol for your transfer needs: SFTP, FTPS, AS2/3/4, HTTPS, and more

IT & Security Management

MSP
OFFENSIVE

Kaseya's IT Complete Platform is built specifically to serve over-worked, under-resourced, under-funded and under-appreciated IT generalists.

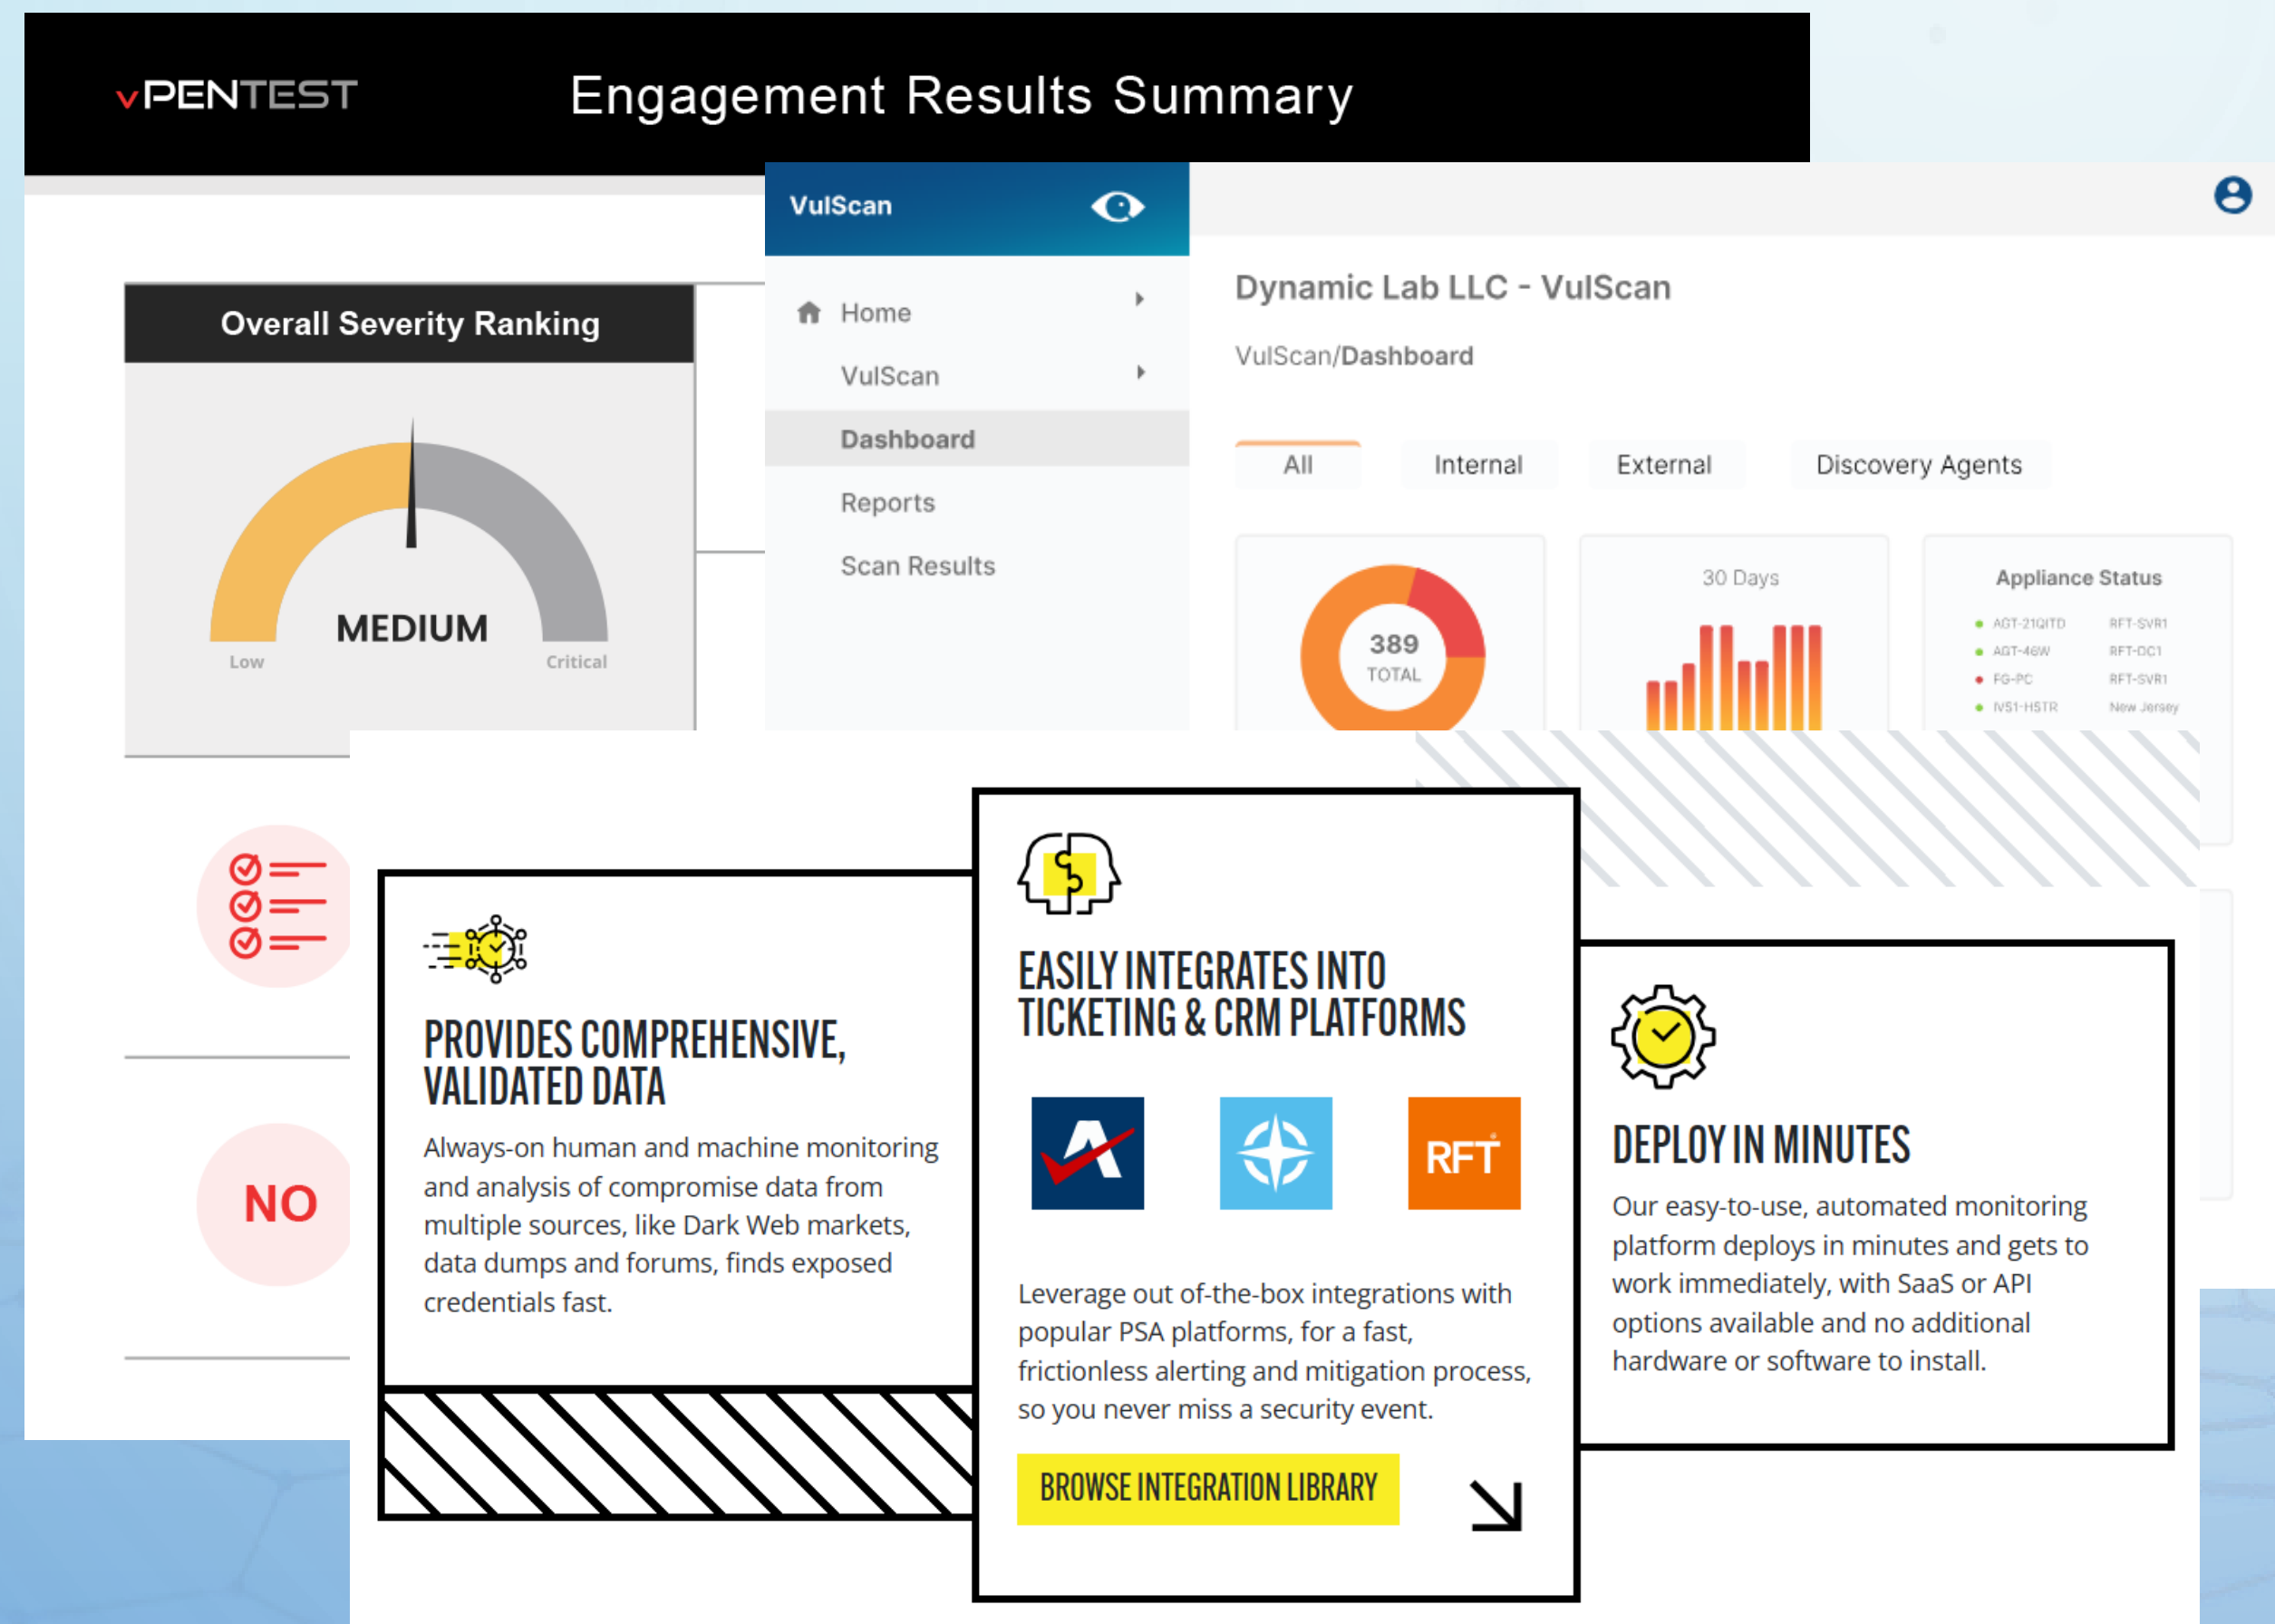

- ▶ Remotely Monitor, Manage & Secure Every Endpoint in Your Network
- ▶ Protect Your Business Data, Digital Assets & Users From Cyberthreats
- ▶ Always Be in the Know of Your Network Health + Compliance
- ▶ Turnkey Sales & Marketing Enablement Systems for MSPs

Cyberthreat Protection for MSPs

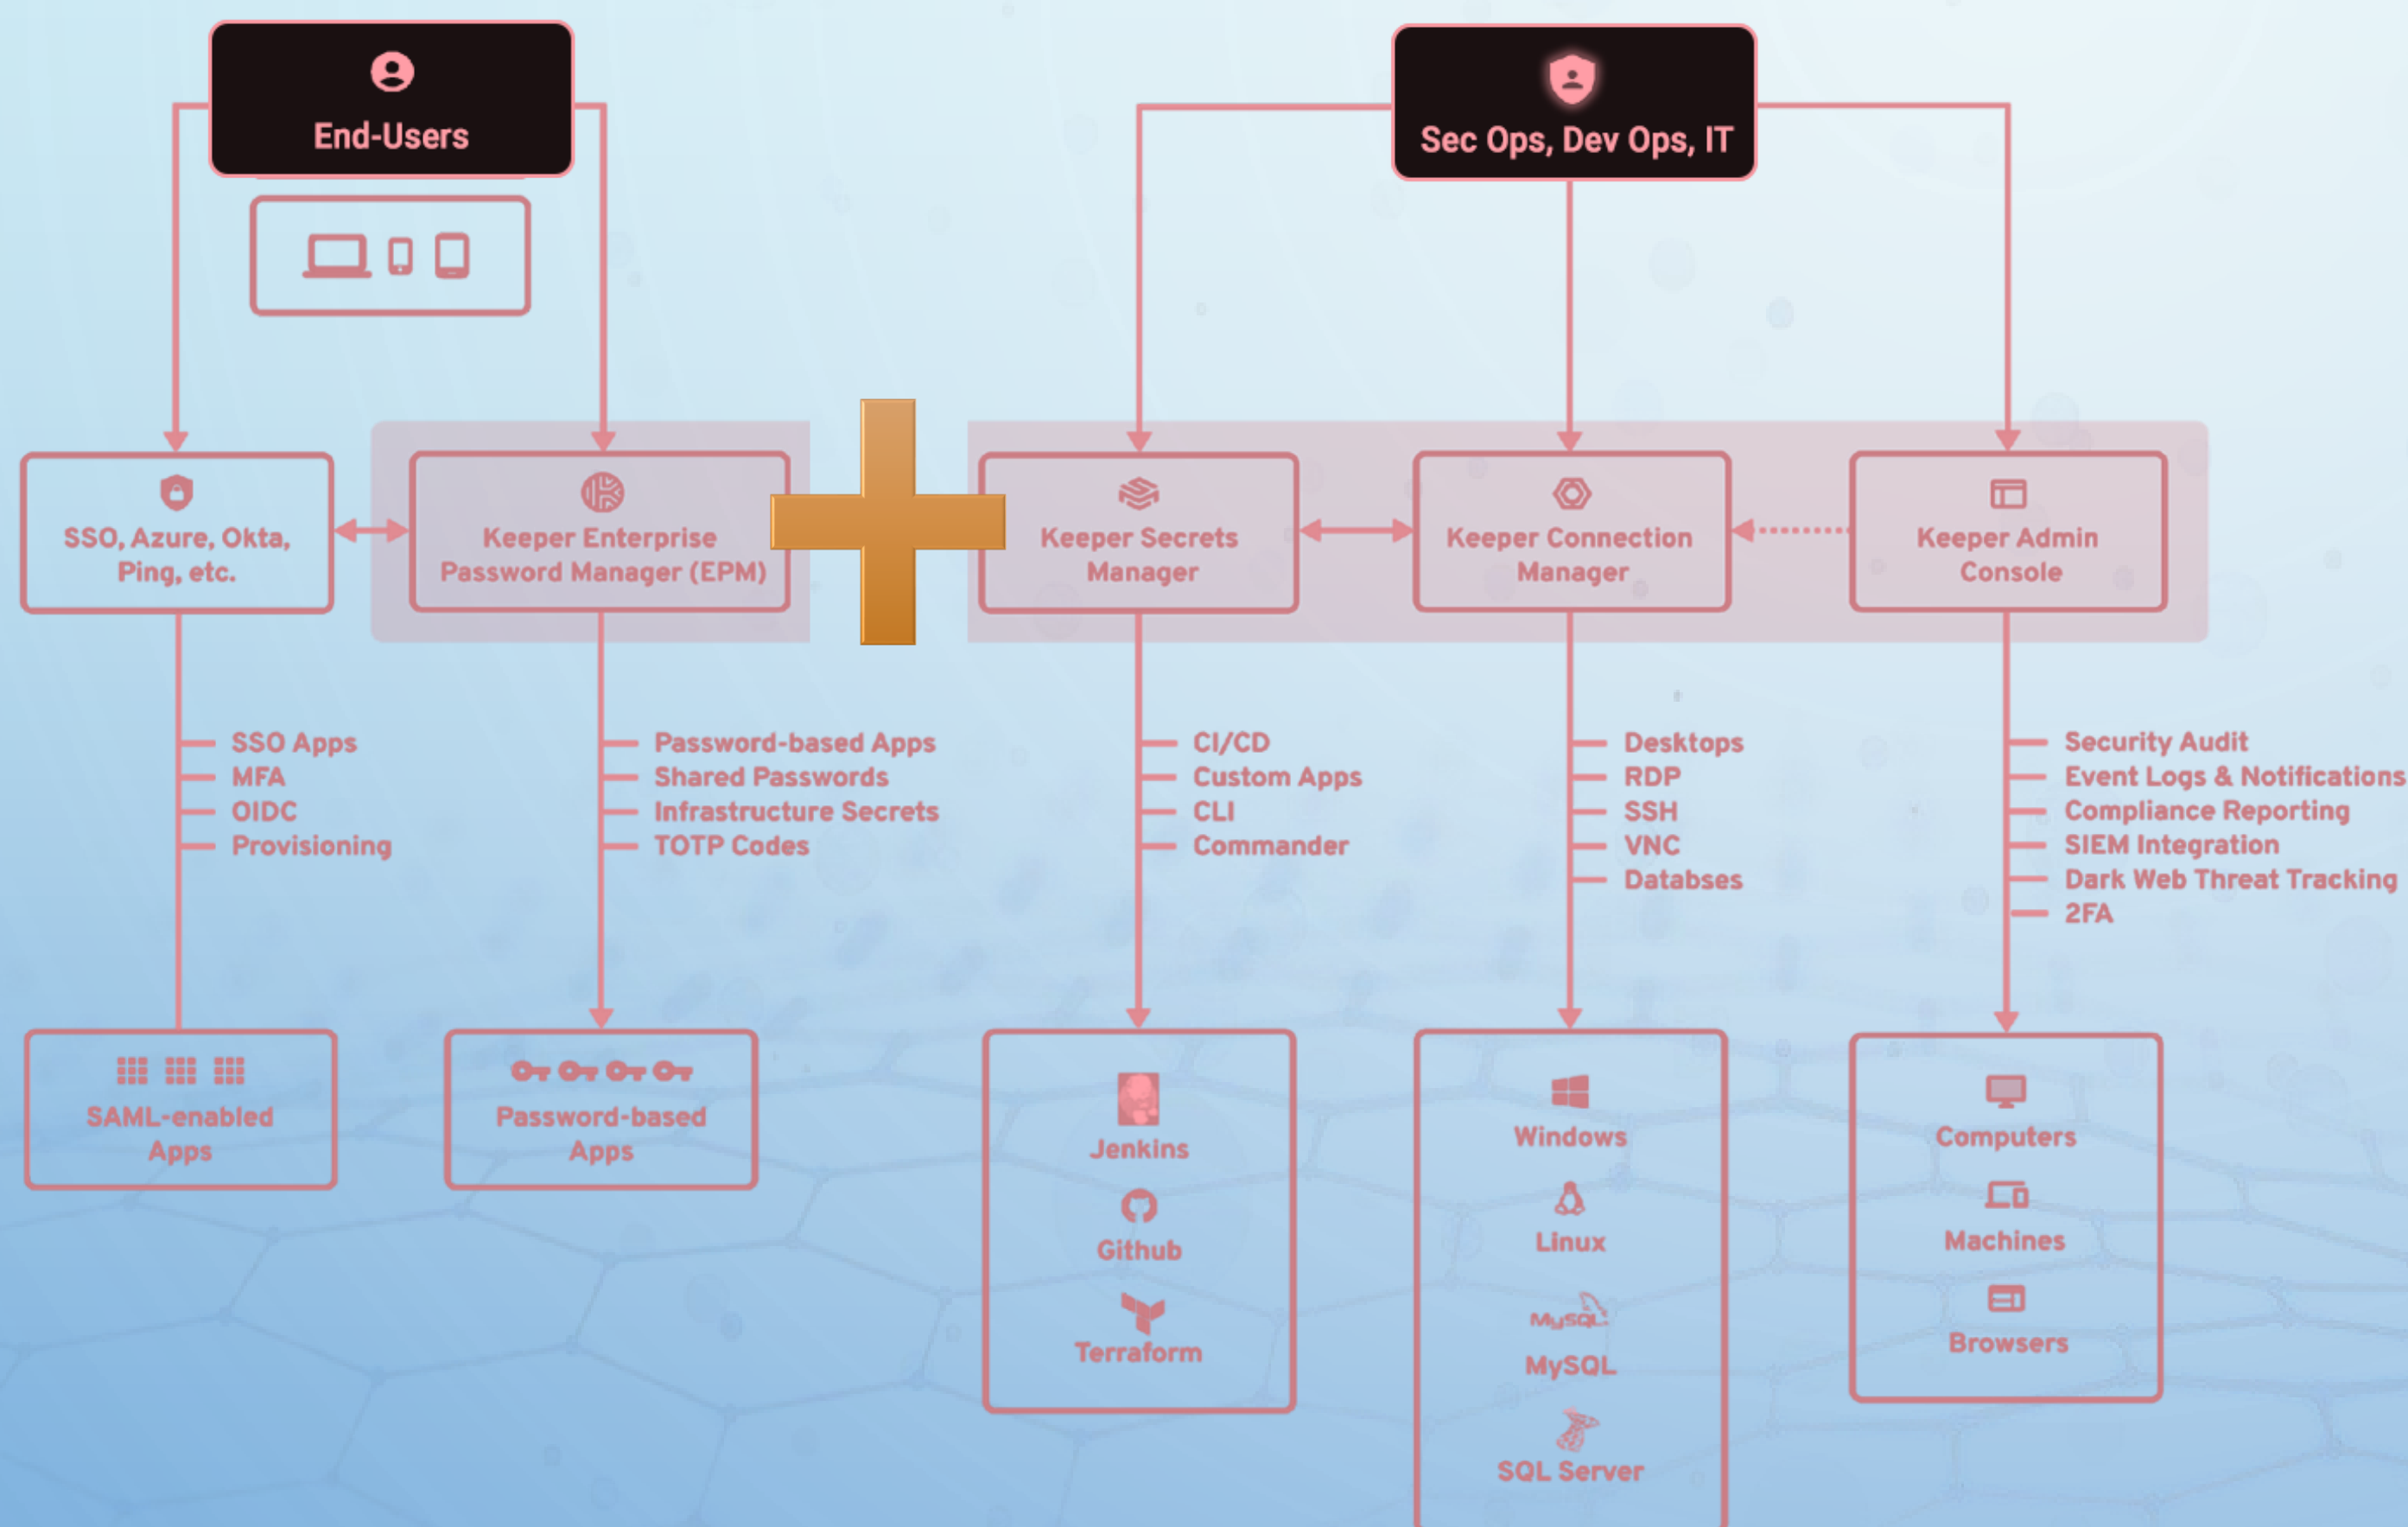

MSP
OFFENSIVE

Kaseya's Security Suite provides threat protection, detection and response, consolidating your security services for greater efficiency, easy access, control and reliability.

- ▶ Vonahi vPenTest: Automated network penetration testing
- ▶ VulScan: Identify IT vulnerabilities in your network by automatically scanning and prioritizing remediations.
- ▶ Dark Web ID: Uncover compromised credentials from all corners of the dark web

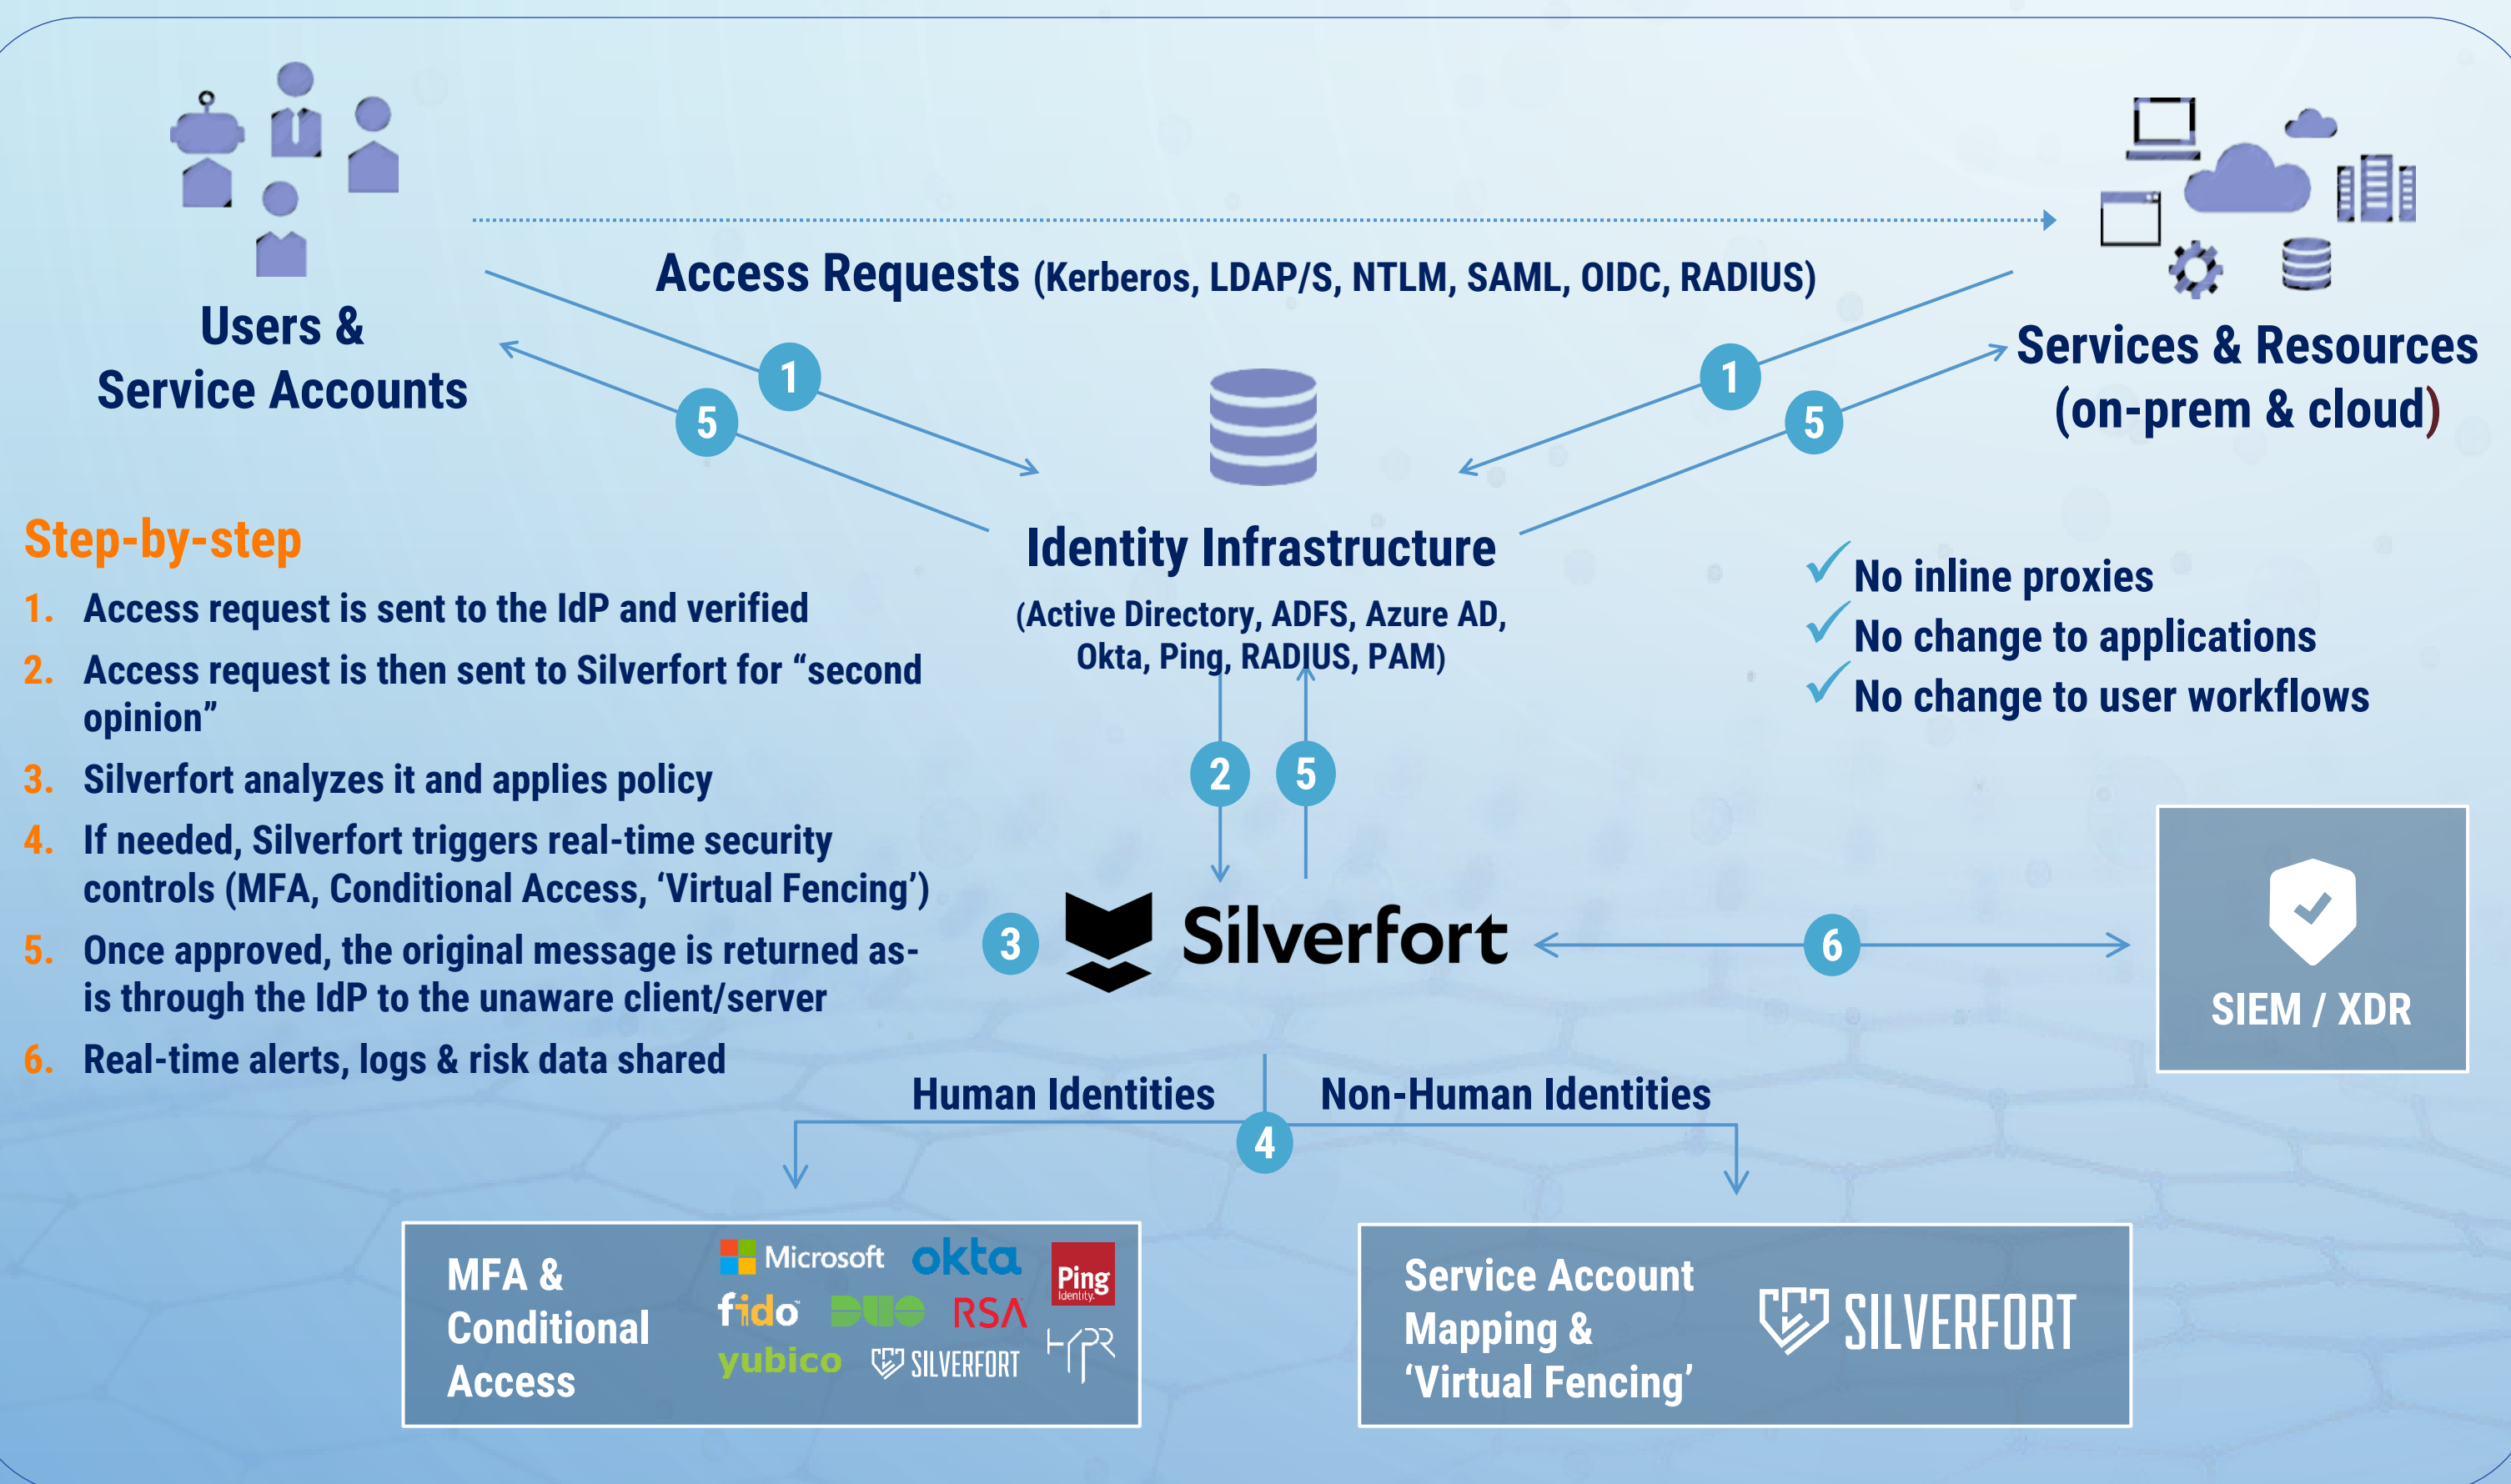

Next-Gen Password Management Solution

Next-Gen, Zero-Trust, Zero-Knowledge Privileged Access Management (PAM) Platform

- ▶ Cost Effective. Fewer products to purchase and easier for IT to manage
- ▶ Fast Provisioning. Seamlessly deploys and integrates with any tech
- ▶ Easy to Use. Unified admin console and modern UI for every employee on all device types
- ▶ Pervasive Visibility. Simplifies auditing and compliance

Identity Security Platform

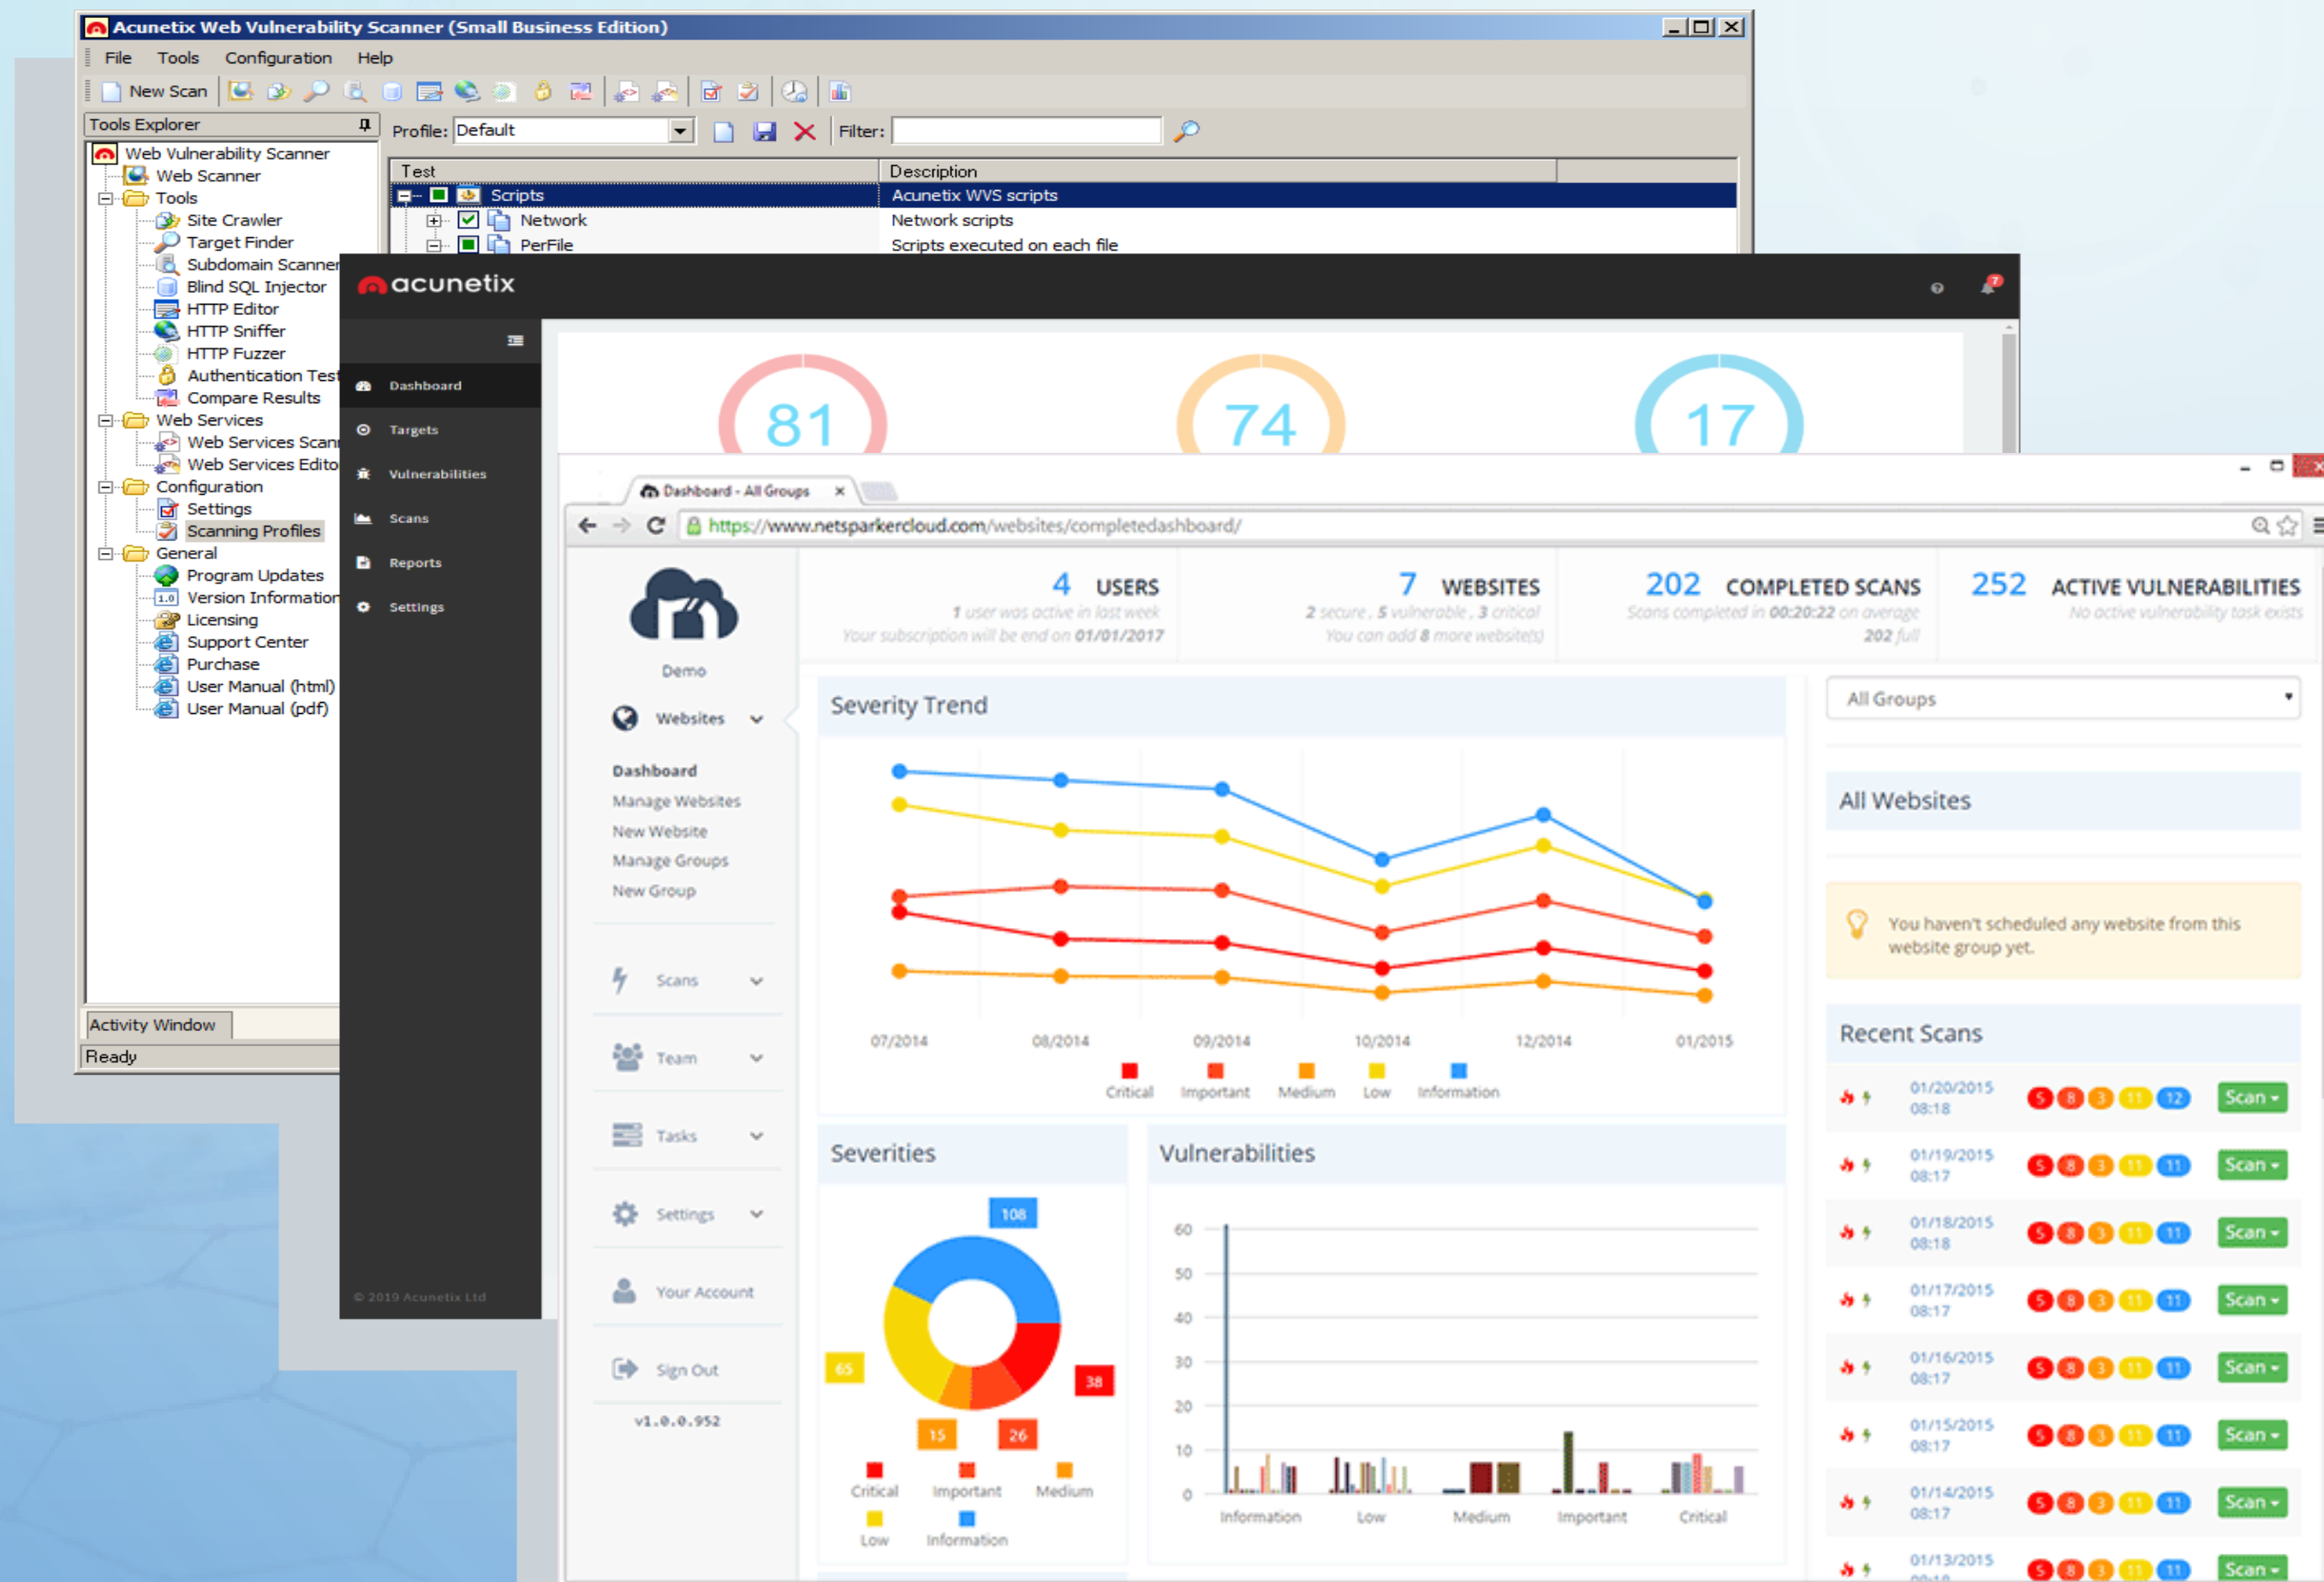

A security layer on top of your existing IAM infrastructure

- ▷ Runtime Access Protection (RAP) technology integrates seamlessly with your IAM infrastructure to protect all identities, all environments, and all resources—all the time.
- ▷ Discover exposures and stop attacks before they cause damage. Enforce security controls across all IAM silos. All in a single platform.
- ▷ Secure every dimension of identity.

Application Security Testing

MSP
OFFENSIVE

Leader in Application Security Testing. Invicti tools should be treated as part of the development and operational processes being an initial Penetration Testing tool

- ▷ Comprehensive multi-team solutions built to scale
- ▷ Built for efficiency & ease of use
- ▷ Ideal for complex and decentralized IT infrastructures
- ▷ Enable API based flexible integrations
- ▷ Available locally and in the cloud

Link Load Balancing, WiFi & SDWAN

MSP
PEPLINK

Internet redundancy, WAN Link Load Balancing, Failover, High Availability, Wireless and Business Continuity solutions

- ▷ Load-Balancing or Speedfusion Bonding of multiple connections
- ▷ Easy Management without Deep Knowledge of Networking
- ▷ Enterprise Mobility solutions for every use
- ▷ Authorized Starlink Technology Provider

Microsoft 365 Governance

The complete Microsoft 365 visibility and management platform for all.

CLOUD CONFIGURATION

- ▷ Baseline
- ▷ Configuration-as-code
- ▷ Continuous Integration – Sync

FOR MANAGING M365 AT SCALE

- ▷ Reduce Configuration Work
- ▷ Multi-Tenant Configuration Deployments
- ▷ Tenants Synced to Baseline Configuration
- ▷ Monitoring and Reporting
- ▷ Version Control

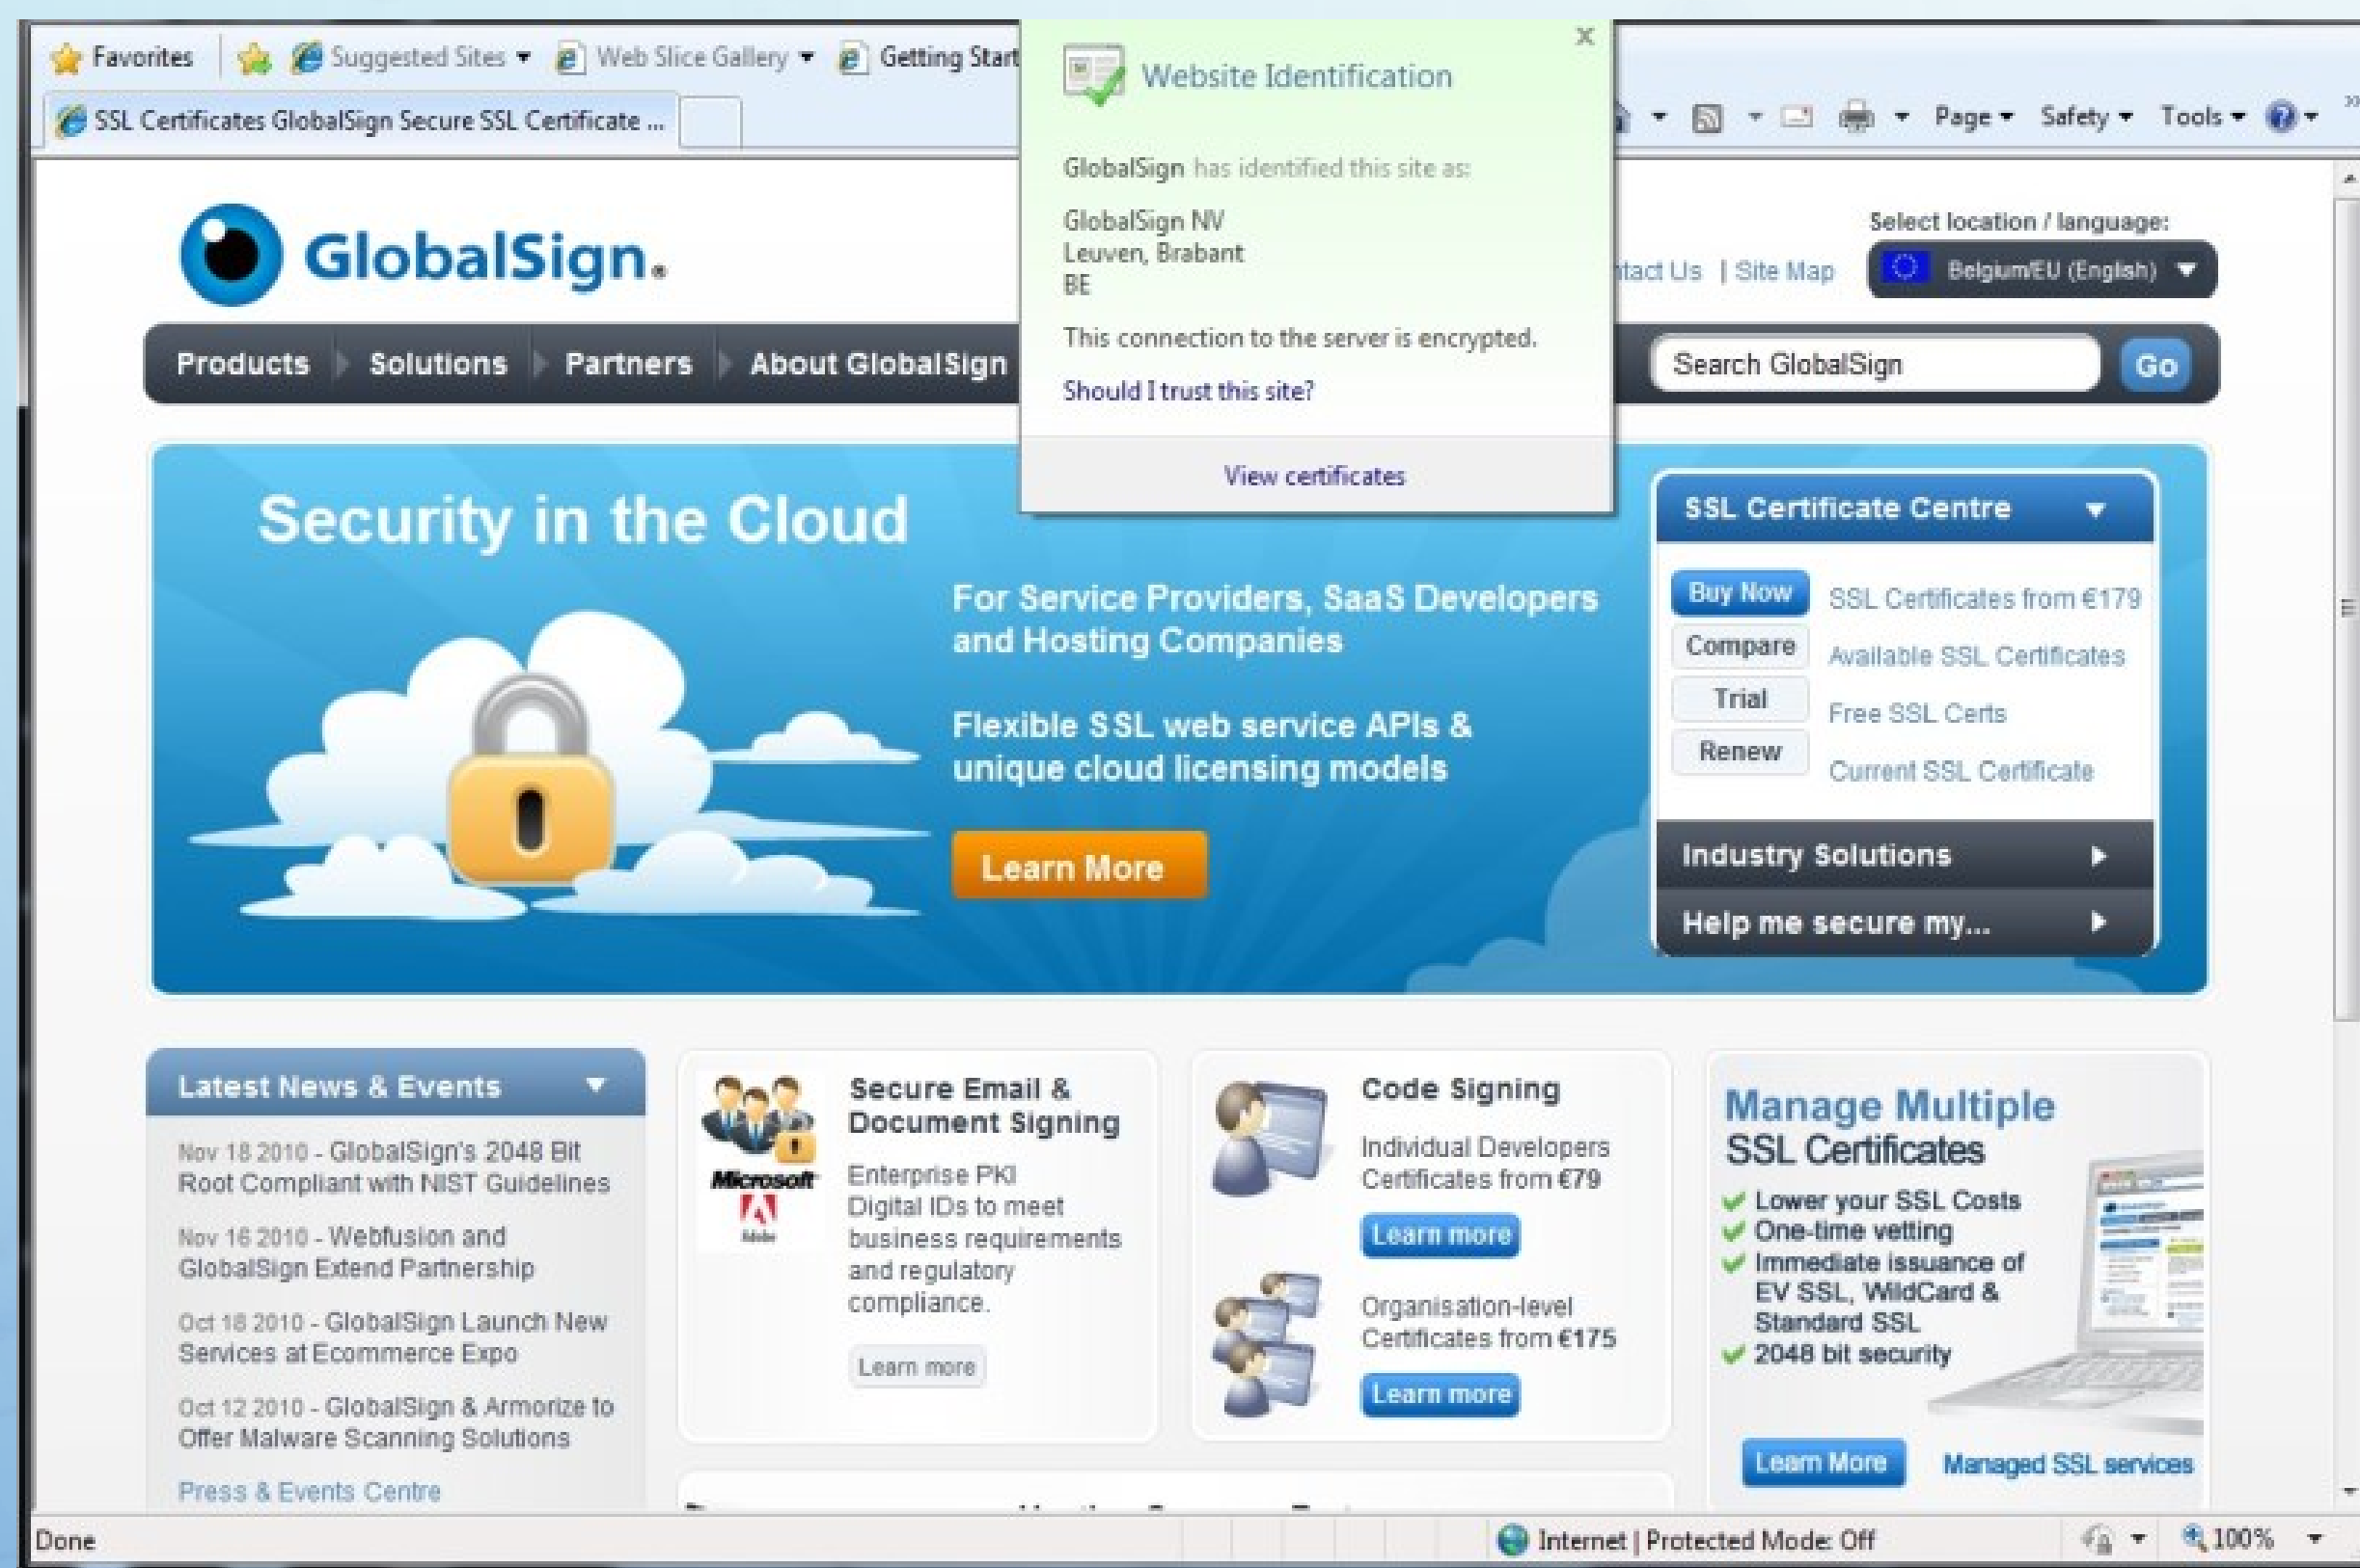

Document Security

Protect Critical Documents wherever they are without high costs or complex technologies allowing them to be controlled

- ▷ Protect critical and confidential documents
- ▷ Distribution & Access monitoring of documents
- ▷ Private data environment controlled globally
- ▷ Modify restriction policies dynamically
- ▷ Revoke access to the documents in real time, whenever & wherever they are

PKI Solutions & Identity Services

Enabling enterprises around the world to conduct secure online communications

- ▶ GlobalSign Certificates are trusted by any Browser, OS, Device and Application and are used for Server Identification, Digital Document Signing, Digital IDs, Timestamping etc.
- ▶ GlobalSign Access Control & Authentication Control which users, machines and devices can access corporate networks and services
- ▶ Code Signing certificates certify that a signed application is legitimate and comes from a known software vendor

Optical Networking

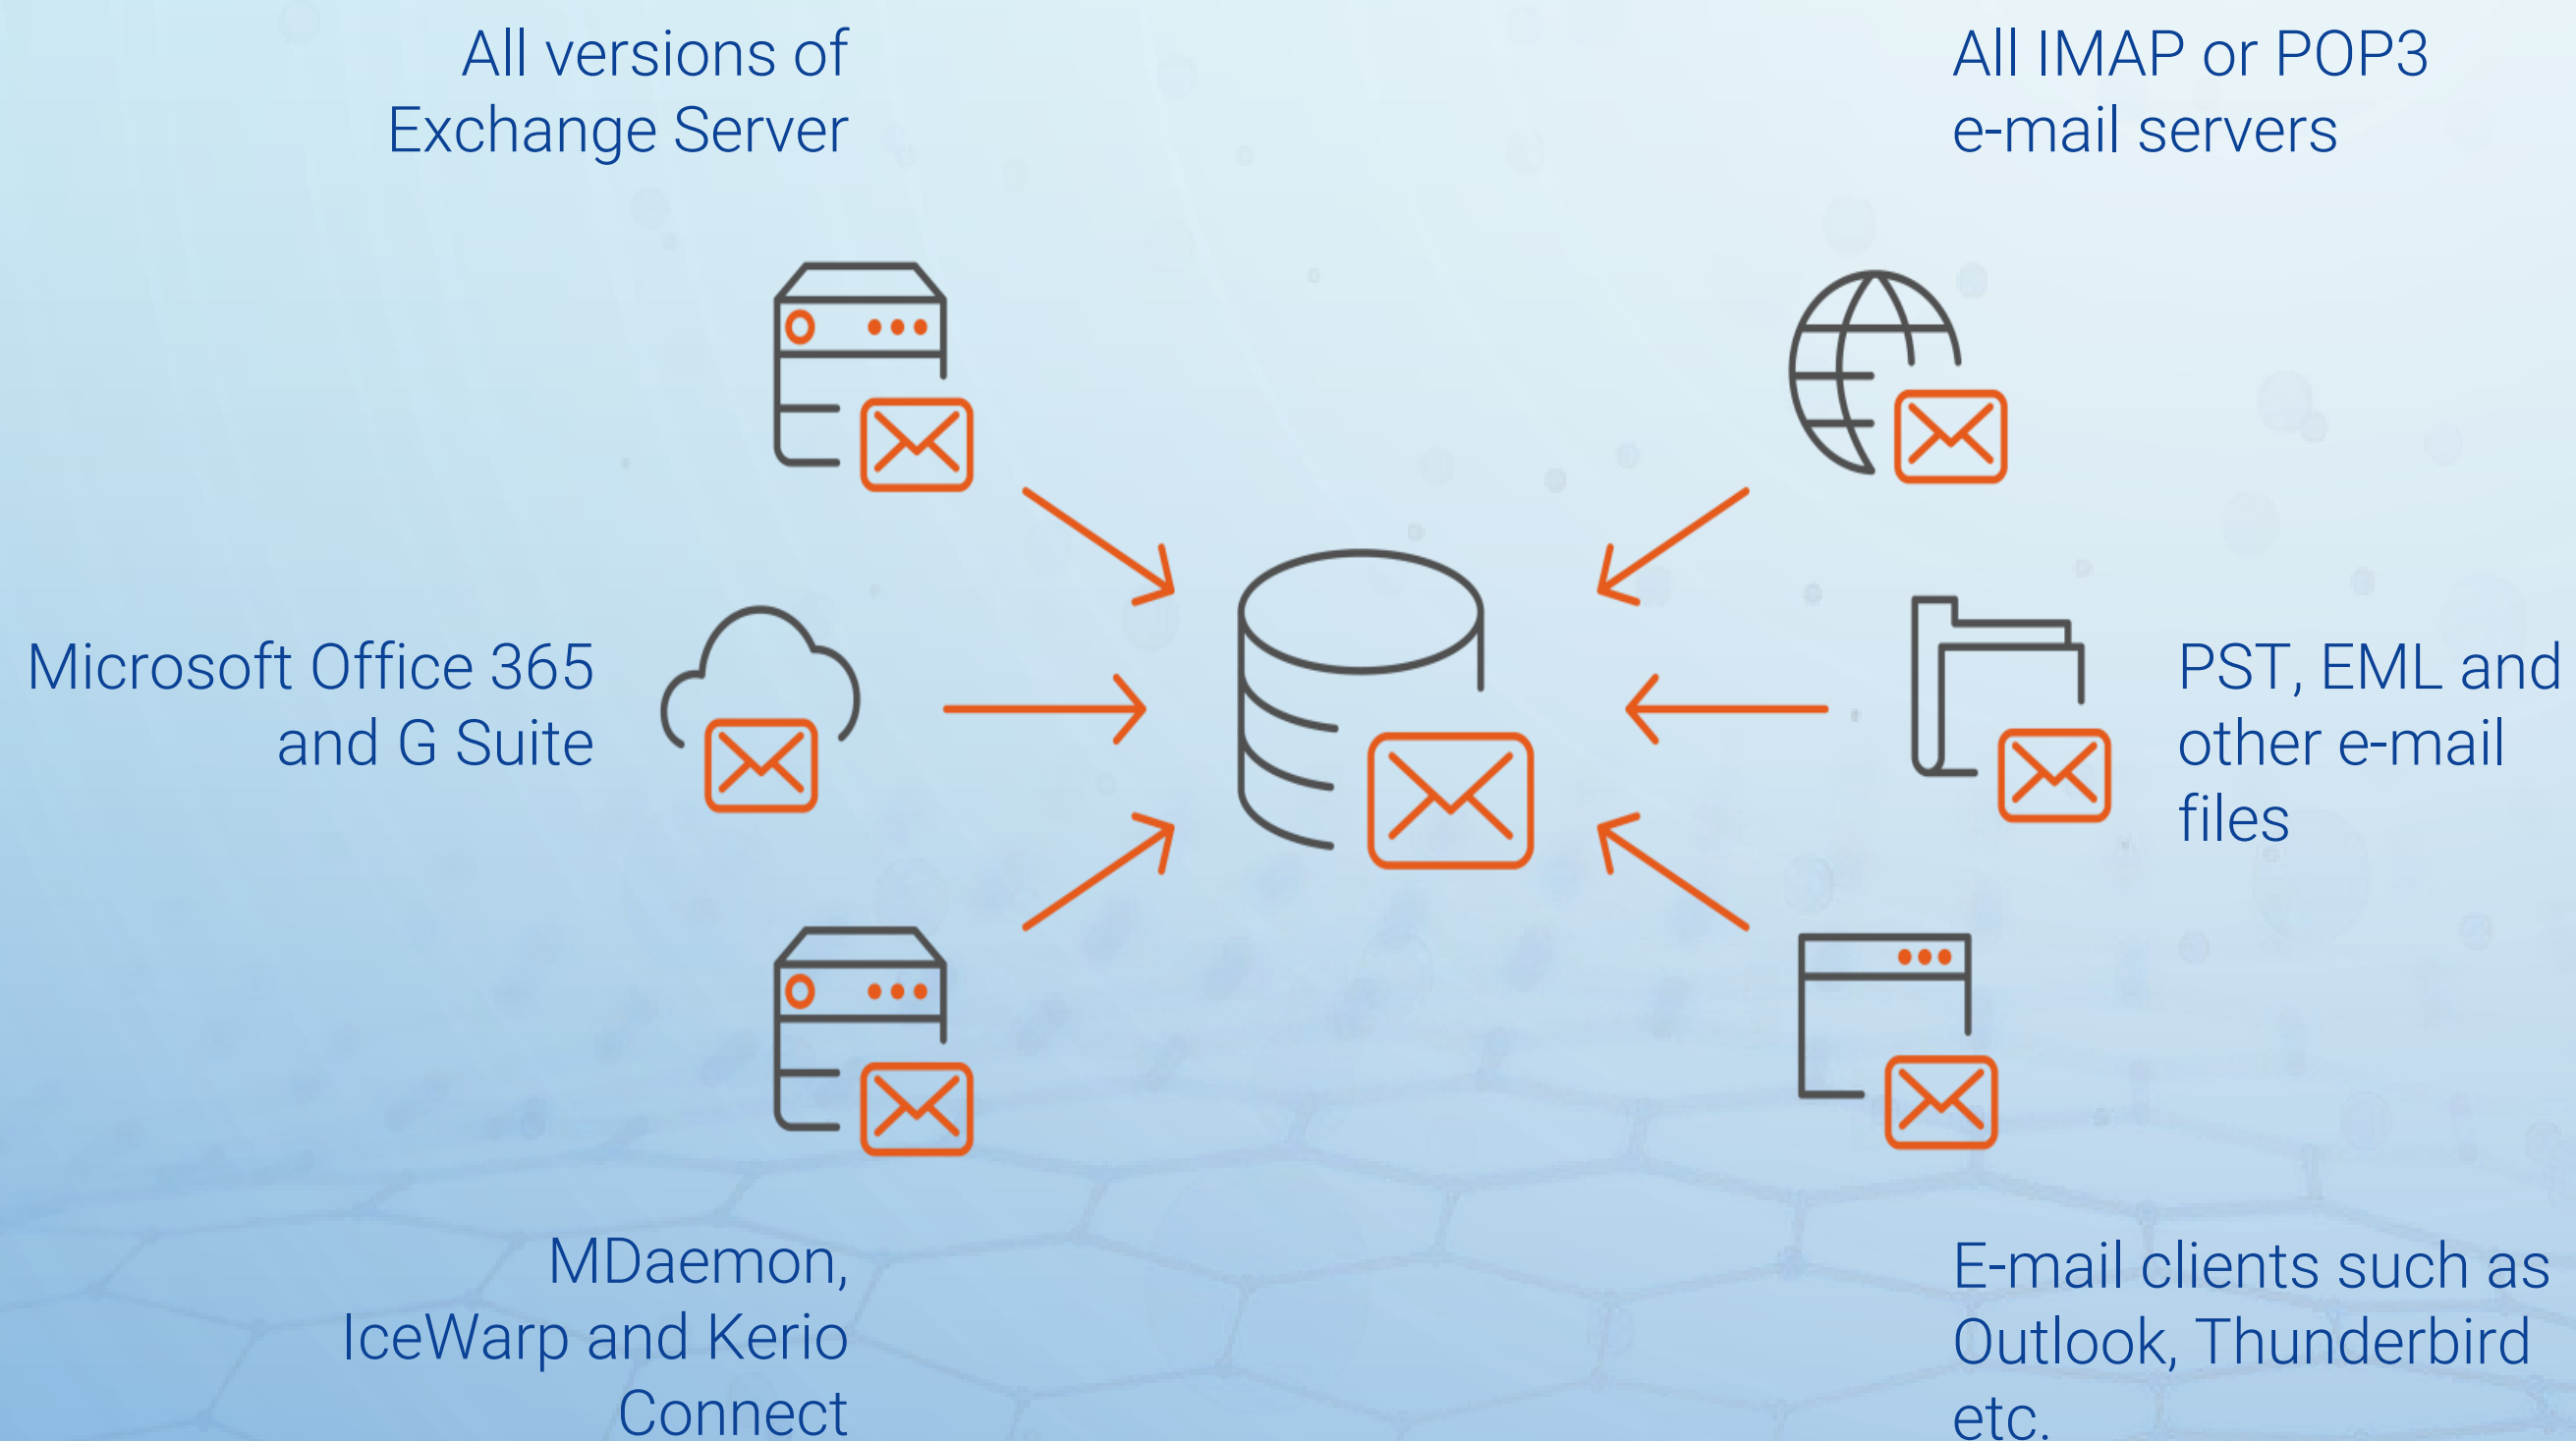

Switch to new optical solutions

Build, modernize and increase the efficiency of transmission networks.

- ▷ Flexibility and Scalability
- ▷ Lower investment and operating costs
- ▷ Compatibility and compatibility
- ▷ Increased network reliability
- ▷ Eco-friendly
- ▷ Support for innovative technologies

Email Archiving

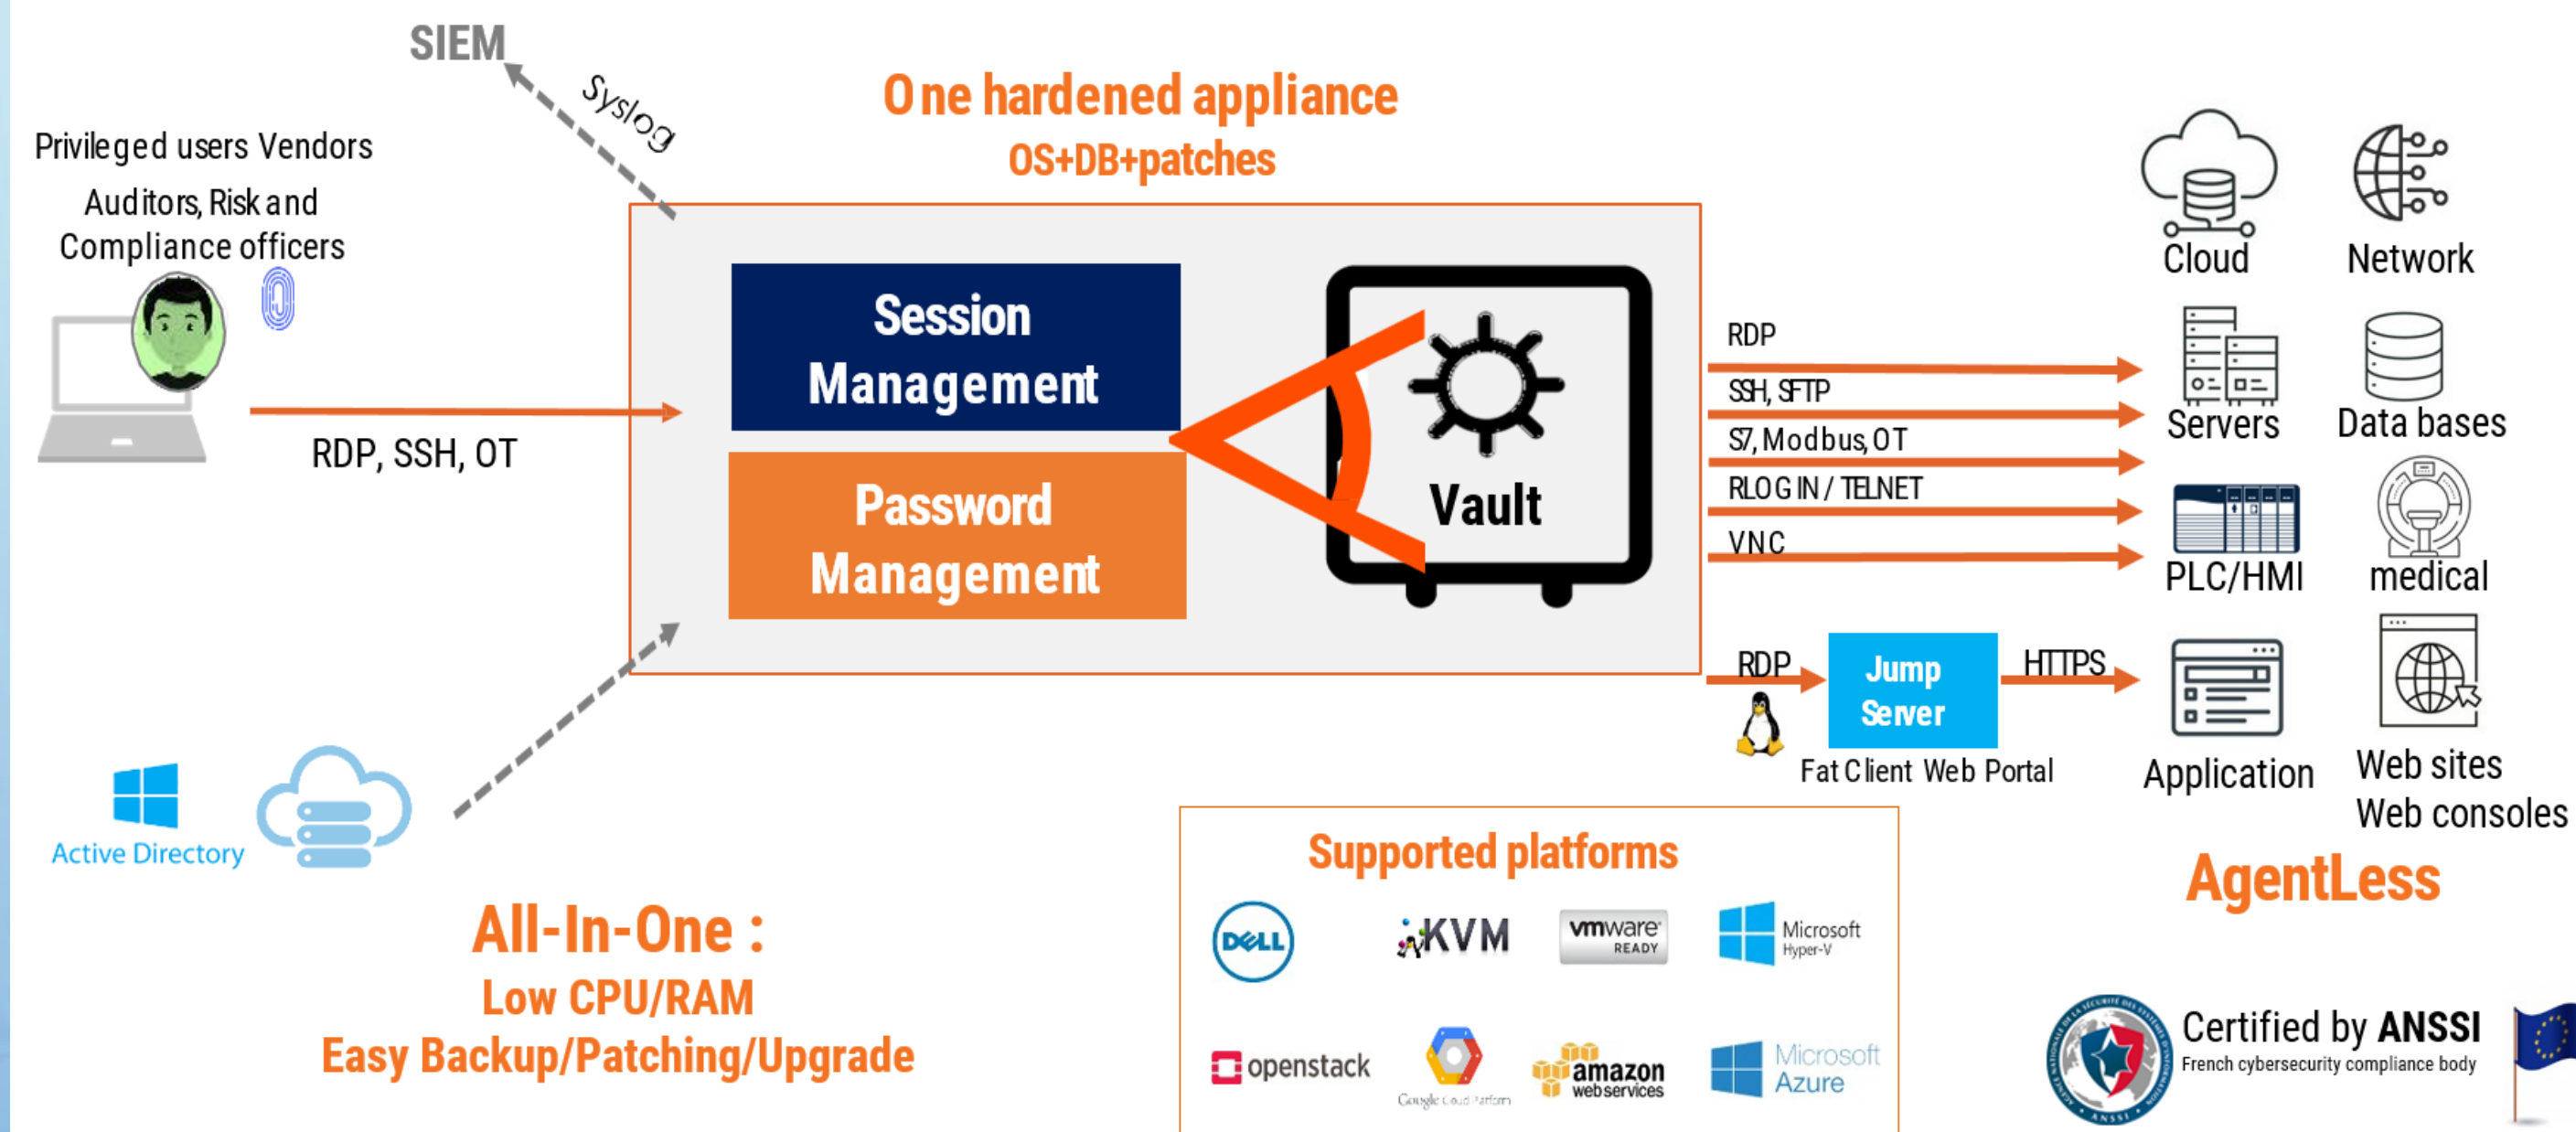

Mailstore Email Archiving solution guarantees the security and availability of business sensitive data in your Emails for the years to come.

- ▶ Existing emails can be archived from different sources like mailboxes, clients, PST files etc.
- ▶ Using deduplication to reduce the total storage requirements, saving up to 70% Storage Space
- ▶ MailStore Web Access allows users to easily access the archive from anywhere including mobile devices

PAM for OT Environments

Supports also OT related protocols

Protect critical operations with WALLIX Zero Trust Security in OT Environments

- ▶ Manufacturing: Securing industrial operations.
- ▶ Critical Infrastructure: When preserving resources is crucial.
- ▶ Smart Infrastructure: Protecting sensitive shared or public services from cyber-risk.
- ▶ Healthcare: For patient data privacy & service continuity.

Tiered Backup Storage

The Future of Backup Storage:

Tiered Backup Storage

System scales to a
2PB full backup -

Largest
in the industry

Over 400TB/hr. ingest rate
at 2PB full backup -

Fastest
in the industry

Restores as fast as disk,

20X

faster than
dedupe appliances

Backup
window
that is **fixed**
length as
data grows

Disk-cache Landing Zone
(performance tier)
for the fastest backups and restores

**Long-term
Retention Repository**
(retention tier)
for low-cost long-term deduplicated retention

Backups as fast as disk,

3X faster

than
dedupe appliances

25+

supported
backup
applications
& utilities

Scale-out
of all
resources
as data
grows

Adaptive
Deduplication
for strong
offsite DR
RTO & RPO

**Most
complete**
& lowest cost
Ransomware
recovery

**Lowest
cost**
up front and
over time

Easy to use,
manage, and
scale

Easy remote
installation -
no onsite visit
required

Shorter backup times that can sustain even if data grows over time ensuring efficient long-term retention

- ▷ Various-sized backup storage appliances that can be mixed and matched in a scale-out dedicated storage for backup systems
- ▷ Zone-level deduplication, for the fastest backup & restore performance at the lowest price
- ▷ Ransomware protection in the Retention Tier as that tier is not accessible to intruders
- ▷ Supporting a wide variety of backup applications, utilities, and dumps as Veeam, Veritas, Oracle etc.

Application Performance, Security & Availability

Application delivery and security solutions aimed at maximizing productivity, ensuring availability and guarding business infrastructure against attack and data leakage.

- ▷ Deploy on physical or virtual appliances, hyper-converged infrastructure, or spin up on AWS, Azure or Google.
- ▷ Deliver any Application including Microsoft, VMware, Oracle, SAP and Apache.
- ▷ Proven solutions for banking, healthcare, manufacturing government, education, and service providers.

Independent Entities

01

Athens Cyber Park consists of multiple entities, not belonging to a single organization. They involve effective brainstorming, collaboration, services interchange, and wonderful ideas

03

Sharing Facilities

Athens Cyber Park is a flexible workspace for companies who want to use high-end facilities at an affordable price

Technology Related

Athens Cyber Park tenants offer solutions that can solve almost any information technology problem within any industry

02

Human Centric

Athens Cyber Park considers the human element as the most important substance and the basic factor of growth for any business activity
